in first time jimmie's confirm me in forum and in private message that your method work in italy, if you like i show you my message and post in the forum. (admin can read private message)
In secon time Jimmie made me buy gold for games because he can't use paypal or other method.
In third time i not required Jimmi's bank login or him payment but i required to help me with him method... in him method he required a bank us account. I can't create it because i live in italy.
In fourth time i required to refund or to help me but jimmi's enter in my pc with teamviewer and he steal my password and my accounts.

Then i required to jimmie to refund or to sell the method for recovery my dollars asthe jimmie's cheated me

I store all conversation in discord for admin if they want read it.... in this conversation Jimmie's confirms everything.

In the last jimmie said me that i must required partnership in hacksforum because he can't help me with him method.

For admin i store all payments, all conversation, all logs(teamviewer) and all history of my web if they want check and all history of my paypal

Ps. i opened paypal's dispute versus him game company (G2A company) where i bought gold for jimmie's, not versus jimmie's paypal because he told me that he don't have.

I didn't blackmail anyone but just asked to help me desperately

i'm sad because he cheated me and stole me all my accounts.

I was scrolling through imgur and saw this posted in the recent user posts.

I don't have any input on this other than please install a screenshot program or use your built in Print Screen key.

Edit: From what I understand this method is US only. Why not just buy a Netflix account for your region for like \$2?

icivy - June 16, 2019, 8:22 am

Spoiler [\(Click to View\)](#)

He is reselling my method the guy he sent a vouch copy to contacted me and confirmed it was the

exact file I sent icivy. Jin Goddo is posting here soon and staff members have been contacted.

And if you look at my sales thread it clearly states the method only works in the United States.
Spoiler ([Click to View](#))

icivy sent me nearly 10 private messages in 2-3 minutes I think he had this planned up the whole time I'm clearly not going to read all of this spam. I even told him 5 times I don't deal with normal members and he wouldn't leave me alone until I sold him the method.

Jin Goddo - June 16, 2019, 9:43 am

Jimmie has sent me proof of his method being leaked by Icivy, I have received the method from both parties and Jimmie has sent a video showing Icivy in fact did scam him and stole his method.

This specific image it looks like he's asking you to use your account with his bank info on it. I think you just misinterpreted what he was saying since he's typing in broken English.

I'm not taking 50 screenshots for a bullshit deal dispute but he gave me options I give him my account or he's selling my method/charging back and the end he did both.

I'm not defending him I'm just stating with that certain image it seems misinterpreted.

Well I think this clears things up I sent valid proof to Eagle95 about this situation and his sales thread has been taken down for selling/leaking my method.
