Thread: [Selling Domain Names - Related to League of Legends new game.](#)

Kenjataimu - June 18, 2019, 2:59 am

Riot the creators of League of Legends is creating a new game called, Team Fight Tactics (TFT)
These domains were recently picked up and if some of these aren't bought then I will probably use them myself.
The domains are very SEO friendly, and won't be much of a problem with ranking on the front page. Perfect for new projects or linking to related stores.

Google Trends: <https://trends.google.com/trends/explore?q=team%20fight%20tactics>
Ranked will be releasing this coming week.

Make me offers. No low balls please.

Good luck with this, unrelated but relevant I guess, but I hate the new game mode, it's complete trash. It's totally unfair and item dependent, the most unbalanced game I've ever played.

Edit: irrelevant but related sorry ^^

Its an auto chess game so there will be rng to it, they are adding guaranteed items, so it should even out the playing field abit.

With the right strategy you should be able to hit top 3-4 90% of the time.

There's not really much strategy about it. It's trash.
