Don't work with this guy, I spoke to a Reddit moderator and they said that he is a scammer and that he's using other people to circumvent a ban on his own account.

darlaryrey114 - June 24, 2019, 8:05 pm

i dont have a ban on my dam reddit account i cannot list because i have too little karma and i listed thats why , if anyone wants to give it a try i guarantee you earn the same day.

Lmao, the Reddit moderator is smart. They know that you're a scammer, don't try denying that.
