What information would you need for a dox

I usually ask for everything the client has to make it faster and easier, But I usually can make due with what a client gives me whether its just a username / alias or an entire list of names and sort. But if you have any questions feel free to PM me.

Wick. - June 21, 2019, 6:59 pm

I received a vouch copy to review this doxing service.

I want to start by mentioning how customer friendly, fast responsive and professional OP is, i don't see this often at sellers, most are trying to build a wall between you and him or are simply very arrogant especially when they are already paid, well OP is none of those, he's a good guy and i recommend contacting him if you have questions about this, he'll be happy to answer them for sure.

Now the most important thing, how good is he at doxing?

I gave OP 2 dox requests, one being impossible to dox and one that would be possible if he's good or at least decent at what he does, i figured that this would be the best way to see how good he actually is since i've dealt with doxers before, free and premium and both requests have been given to multiple doxers before, one of them being a scammer who scammed me (i already had his info before OP gave it again to me so it would be a good dox to test him with) and the other dox is myself but on another forum with very little information, nobody ever found anything through the info i gave to OP aswell, i didn't mention that it was me tho just so you guys know.

I want to tell you the results of the scam dox first.

OP has proven to be quite fast and creative when he doxes, he found similar info that 2 other Premium doxers provided to me so i can confirm it was a real and succesfull dox, pricing is similar aswell, i personally don't mind paying more tho especially when someone like OP is doxing for me but i can imagine that most people would not, pricing is fair OP.

Now what did surprice me a lot were the results of the impossible dox.

I've given this task to 2 other premium doxers and 2 free doxers before and nobody came up with anything i only got insulted for giving so little information.

But as i mentioned before, OP is pretty creative at what he does and to my big surprice he did find something, and not only 1 thing.

He found Multiple profiles on other websites and even a phone number used once for verifications which took me a while to confirm if it was indeed the correct phone number and it was.

He also found an old steam account and on top of that he a also found a false lead which was done

on purpose (if correct this is called a misleading footprint by doxers) and therefore i have to say that OP is very good at what he does and you shouldn't hesitate working with OP.

Do i vouch for this dox service?

Yes without doubts, OP is fast in delivery, creative, good at doxing, he is friendly and his pricing is fair, i don't see any reason why you wouldn't go for this guy when you need any doxing done.

Doxing Results: 10/10

Delivery speed: 9/10

Customer Support: 10/10

How precise are the addresses? Would longitude and latitude be arrange-able if I was able to provide full names with family member names and phone numbers ? The target in question would be a very public and careless person.

The address is precise. and the when you say "longitude and latitude" I am assuming your'e using an IP which is not accurate at all.

I only ask because in some places street names and zip codes are non-existent as well as other important things you would typically use to call out an address. I probably didn't mean to ask about longitude and latitude, i am inexperienced and it's blatantly showing.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

Please make sure not to bump your thread with a LQ Bump.

<https://hackforums.net/showthread.php?tid=6011110>

Quote:How do I bump my sales thread?

You don't do so with LQP and you are not allowed to post/bump/delete either. PBD (post/bump/delete) is where you make a new reply in your thread, wait for another post, which bumps your thread then you delete the post. We take PBD seriously and you can be instantly banned and your sales thread closed for doing so. If you want your thread bumped you should make a quality post that positively affects your sales thread or responds to a pertinent reply to another post. Posts that are not acceptable:

Not a full sentence

Add nothing of value to the thread

Are a duplicate or very similar to previous posts (e.g. restocked whatever OP is selling for the third time)

Or are otherwise LQ and made solely to bump the thread

That is not an exhaustive list, it is just guidance on what is not permitted.

Stanley - June 14, 2021, 10:36 pm

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
