I got over 54 amazon gift cards in a hour, so happy with my results.

the total is about 1,987 or something amounted to that I just said 2k as click bait

this isn't really much compared to how I made 10k off paypal in 4 days in the past but at least its free money who cares right?

2k in 1 hour is much better than 10k in 4 days...just saying

it's not consistent, my old method I could abuse it and it was grey hat method so it was working for awhile
