Thread: [Blind .exe and PDF file without virus scan detect](#)

ramubike - June 21, 2019, 3:52 pm

Hi. All the Experts..

I need your help..

I need to make one setup file into Auto install (Hidden install) and need to attach in PDF format... (binding)

Please help into attach . exe file and PDF file both without virus detect..

my name is vikram... contact mail : ramubike@gmail.com, Skype : ramubike@gmail.com, cell : +91 - 9030521030 , from Hyderabad (India)

Please respond any one ,, need to restart my business... Please help me and give suggestions...

He is looking to attach a exe to a pdf and installs silently. Looks like thebones he has found are detected by antivirus from mail servers.

silent install / execute will not be easy to find and expensive. Best off finding some macro exploit.

Also, I have not really heard of many PDF exploits. I only seen .doc exploits on hackforums anyway. Are you guys aware of any?
