Thread: [HOW I MANAGED TO EARN 30 000\\$ + IN 3 MONTHS \[RISK-FREE\]](#)

Parkata98 - June 22, 2019, 10:24 am

I am making this thread because many People got interested from my other thread
For 3 months already I am betting every week on insider information for CS:GO and Soccer Games
I've started with 0.04 BTC balance and got it to over 3.5 BTC (With all the money I cashed out from the site)

This is my balance currently:

Rules for working with me:

- There is only 1 tip per week
- You get the tip 24 hours before it starts
- You agree that you wont share these tips with anyone or try to sell them. If I find you do so I will be forced to kick you from the group without futher explanation

Tips to be safe:

- Have verified betting account that supports soccer and esports bets (sportsbet.io for example)
- Do some random bets from time to time so you dont look suspicious

Take on mind that sometimes the sites don't let US bet more than 0.2-0.5 BTC per game (For Highrollers)

Entry Fee:

1 Week - 200\$

Pernament Spot - 500\$

Some Wins :

Why you don't show my bets? What is avg odds?

Balance can be easily change via inspect element

Fresh account selling access to fixed match. Sounds so legit

Patriot - June 22, 2019, 12:51 pm

Please show your bet history in full.

Seems a bit fishy that you made a bragging thread and then a sales thread the day after for this "insider group".

But I won't jump to conclusions so please show full bet history. :)

You know bro that what I am doing is illegal?

I got close to 3 BTC in my account and I won't do anything that might harm them

I opened this thread as many People showed interest and I think it's fair for me to charge a fee as I am paying for the information too

I prefer to have no people to work with instead of losing my BTC

Showing winning bets can't tie you to any "insider" group. They are just winning bets.

Yeah it won't be suspicious that over 50 people in the group have the same bets at nearly the same time (as we all get the info 24h before the games)

Many people bet on the same games across the world.

But since you're worried about that...

If you only get 1 bet a week, how did you turn 0.04BTC to 3.5 in 3 months? Unless odds for the games are +200 or higher..

I think your mathematic is wrong bro

3 months are 12 weeks

Some of my bets were 0.5 BTC each so I raised my capital fast

200 odd x 0.04 BTC would make 8BTC just from one game.

Wish there were such an odds

By +200, I mean 2x odds.

What you can do to show proof is show your bet history, but cover up the match names.

Paying \$200 per tip seems high, as there will probably be a point where the tip isn't 100% accurate and it becomes a loss.

So \$200 for a tip, To make my money back i'd really want to be betting MIN \$1,000?

Odds would have to be ATLEAST 1.4 or wouldn't be worth the risk.

This is so fucking stupid. If anyone had 100% fixed matches they would have some high end players betting hundreds of thousands on these matches. Or even better. Go to several bet points and bet \$1000 at each getting physical coupons.

Anyone falling for this is plain stupid. Why the fuck would he need to sell it for \$200 if it is 100%?

Stupid shit..

I do this for extra income so I can keep my BTC inside my account and not having to withdraw everytime I need money. I spoke with this user and asked for proof which he wouldn't provide, only sending a pic of his BTC balance on his online betting account, which proves nothing about him having solid bets, all he probably did was inspect element and screenshot.

If the OP really has some insider information, I would be very surprised.

This is most likely a scam attempt. To prove your claims, you must post your prediction 24 hours before in a lounge to let everyone see.

If this actually turns out true, it might be a chance factor playing in.

The user who kept vouching for this user also have a thread opened for some greyhat method. It seems he's in this as well.

If it turns out to be a scam, I won't be surprised. Just Post free predictions in a lounge section to prove your claims for atleast 2-3 games.

Anyone trusting this "insider information" claim deserves to be scammed.

Your tip is simply based on 50% chance, right ?

What are the odds of your predictions ? You simply telling which team will win out of two teams ?

Is there anything else you're Adding to this ?

Odds are always from 1.60 to 3.50

The tips are always different - like the interval of first goal, exact goals numbers

Most of the tips are CS:GO ones tho

The tips win 100% all of the time

There are some website for sport bet's , some guys are giving free fixed matches (+60 Odd) , but they ask you to play in one website (which actually are scamming people , they programmed the site where it shows live matches , also they show the "fixed match" "live" , the "fixed match" will finish as

they say) , after you bet and "win" , you will be having big problem withdrawing your money , actually they wont let you withdraw , because there are no such games (like Sofabet from Turkey) .
Don't misunderstand me , i don't know you'r matches , i'm just saying what i know !

Only 2 threads, 1 in bragging rights, and then 2 days later hes selling his "magic method"

+ multiple users trying to get a vouch copy, but now theres excuses?

If you get scammed by this, you only have yourself to blame.
the only reason OP isn't getting flamed up is because bromden is supporting him

jasonleto - June 27, 2019, 3:38 pm

@parkata98

You said the pics would be given today because the match is tomorrow

Gucciii - June 27, 2019, 4:27 pm

Lol interested to see how this plays out, keeping this thread at the top.

Parkata98 - June 27, 2019, 4:31 pm

Since you have the information on the betting for tomorrow have you sent it out to all the vouchers and people who purchased so they could make their bets?

Yes, I did

evelution - June 28, 2019, 5:16 am

I think the best way to prove this is to post a bet publicly. When it wins, people may be more likely to purchase

So did everyone get shafted on there bets also? Has the people that bought placed their bets?

Interested to see some feedback

Vitaly - June 28, 2019, 9:38 am

you shouldn't of shown your balance. all it takes is for someone to report you and then the site just looks for someone with that exact balance and boom

Last night when I got the info I wanted to place a bet and it said it is rejected. I contacted support. I had to send email to security@sportsbet.io and I still dont have response for almost 12 hours when they usually respond within an hour

Mazak82 - June 28, 2019, 10:16 am

You're not trying to help anyone, you're trying to earn money.

Your account didn't get banned because someone reported you and they found it using the balance, that's a BS.

And if you have 100% sure bets just bet at any bookmaker, spread your coupons and get rich quickly

Ofc not

This guy is a scammer, multi and admitted to scamming

BITCHLESS - June 29, 2019, 4:01 am

Well if you get scam by him it's your own fault. A lot of users write in this thread its scam.

If you show me proof that you were scammed by him. I will add you to my group for a week.

Also what bet did he post?

jasonleto - June 29, 2019, 4:06 am

goddamn man this week alone multiple people got scammed for 2K combined per sales thread.

the seller told that he would show his full betting record to the customers. Only one customer reported back saying he hasn't seen it.

NO ONE ELSE opened their mouth. it's like HF members are helping making it so easy for scammers

If you look into this thread everyone who has more than 20 IQ said it's a scam.

Gucciii - June 29, 2019, 4:43 am

LMAO if you got scammed by OP that is totally your own fault. Many people called him out and still, people continued to buy. Live and ya learn but don't learn on stupid stuff like this where its obviously a scam. SMH

Patriot - June 29, 2019, 8:19 am

Yeah I posted in this thread like 5000 times warning people to be cautious. Live and learn I guess..

jasonleto - June 29, 2019, 9:19 am

i didn't buy but no one of the contracted buyers has created a DD.... seems fishy

damndoe - June 29, 2019, 2:35 pm

They are busy celebrating for the win lmao

Mon3aan - June 29, 2019, 4:58 pm

Why don't you just post the bet a few minutes after the match has begun? At least that way you can get a shred of credibility

SerotoninMaster - June 29, 2019, 9:36 pm

Would you be willing to send me some more details regarding this course in private. Thank you I am interested in getting a permanent spot.

GreyGorilla - June 30, 2019, 5:35 am

jasonleto - June 30, 2019, 5:45 am

SAIDECHH - June 30, 2019, 5:46 am
