Thread: [Multi-Vendor Marketplace In Bitcoin PHP](#)

prince999 - June 23, 2019, 6:22 am

Do you want to sell and earn income with an encrypted currency like Bitcoin?

Do you want to manage a website with bitcoin as the main currency?

With this script you can sell through your bitcoin address from the block.io site and buy products in bitcoin, all of this between sellers and buyers, because the website offers a mutli-seller concept.

Features

Multi-Vendor
Add/Edit Product
Level based on sales
Report Scammer
Messenger System for sale or contact
Admin Panel System
Bitcoin Payment Box
Top Seller #1
Requirements
PHP 5.4 / 7.0
MYSQL 5.X
mCrypt & GMP extension installed
PDO installed
Shared Hosting recommended

inbox for demo
or contact - PERFECT-SELLER@TUTA.IO
PRICe - 10\$
FOR OLD MEMBER 7\$
PAYMENT BY BTC ONLY
[contract=tid]Start Contract[/contract]

DISCORD - Razor#0045
