Thread: [\[Prevail\] Kizumonogatari Review \[warning: spoilers\]](#)

Description:

Kizumonogatari, which translates to Wound Story, is a series of Japanese animated films directed by Tatsuya Oishi and produced by Shaft. It is based on the light novel Kizumonogatari, a prequel to Bakemonogatari and part of the Monogatari series of light novels written by Nisio Isin and illustrated by Vofan.

Synopsis:

Koyomi Araragi, a second year high school student at Naoetsu High School, befriends Tsubasa Hanekawa, the top honors student at his school. Tsubasa mentions a rumor about a "blonde vampire" that has been sighted around their town recently. Koyomi, who is usually anti-social, takes a liking to Tsubasa's down-to-earth personality. That evening, Koyomi encounters this rumored vampire: she is Kiss-shot Acerola-orion Heart-under-blade, also known as the "King of Apparitions." The blonde, golden-eyed vampire cries out for Koyomi to save her as she lies in a pool of her own blood, all four of her limbs having been cut off by three vampire hunters. Kiss-shot asks Koyomi to give her his blood in order to save her life, and when he does, Koyomi finds himself reborn as her vampire subordinate.

This is basically the plot for the first movie, but as the series continue Koyomi Araragi is forced to fight the three vampire hunters and get kiss-shot's limbs back(she is known by many names). In order for her to become 'whole' again.

The third movie is basically Koyomi trying to earn his place back into his normal life. He has to kill his master, other known as Kill-shot, in order to be human again and have a normal life with Tsubasa (potential girlfriend).

Opinion:

I really enjoyed this series altogether; definitely has some well-balanced humor and plenty of action(especially in the second film). Definitely remind me of Tokyo Ghoul in the same fashion, so if you enjoyed the balance of romance, action, and gore I believe you would enjoy this film as well. Each film is about 50 mins so it's a pretty fast pace, straight-to-the-point type film which is hard to do but they seemed to capture all the important scenes and details. I would highly recommend taking a look into Kizumonogatari in your spare time, you won't regret it!

Feel free to share your thoughts and opinions.

Thank you!

Have you watched the whole monogatari series? or is this the first one you watch from it?

I am currently doing the monogatari series in Chronological order and enjoying it so far. But watching this first made me disappoint when I started watching the seasons as the animation is of lower quality there.

By the way, great review, I really enjoyed reading it, it truly is a gem!

I have seen them all in chronological order, and I would have to agree that the animations did lack. The quality of the plot stayed consistent though along with all the other factors that really put this anime in the spotlight. Thank you very much! :)
I'm glad you enjoyed it!

Thinking of checking this out. I didn't really give it a good look before my last post, but it looks pretty interesting now that I do.

But again, good content.. we need more of this in the AA Section. Hope to see more of this kind of stuff from you, and others as well hopefully.

Thread is a bit old but someone bumped it so I'm going to leave a post here saying I'm going to be checking it out. I only really enjoy horror anime with minimal comedy, but this one looks promising. Art style seems a tad weird from the picture OP used, but i'll get back on that. Cheers!
