I was very bores today so i went through this forum. I checked deal dispute section and i started laughing my ass off then few seconds later teas coming out my fking eyes feeling sorry for dum motherfuckers.

WHY DO PEOPLE BUY GAMBLING SCRIPTS????
WHY DO PEOPLE BUY BUSTABIT SCRIPTS?????

You fucking dumb people you deserve to be scammed but at the same time i feel bad for u and all that will be scammed

GAMBLING SCRIPTS WILL NEVER MAKE YOU MONEY
any fucking gambling script especially bustabit that sells a ton for some reason AND SAY THAT IT EARNs MONEY
IS BULLSHIT

WHY?
house always wins longer the script is running more you loose
You will NEVER earn money with gambling unless you are the house

Now folks explain please is everyone so dumb and dont have enough iq to see this?
Or do they not give a fuck about money and throw it away for fun would it be better loosing it betting without scripts then?

In the long run a gambling house wins, short term profit is possible.

But I agree with OP it is stupid to buy scripts when you know the casino will always have an edge.

haha, Scripts doesn't win for a long span but manually bet neither, only handful people make profit maybe 1 in 10,000.
