Thread: [Samsung Galaxy 10+ vs Samsung A30](#)

Creativo - June 26, 2019, 9:10 pm

Hey guys, It was recently my Bday, I lost my phone on this big party in Cancun, Anyways, I told 2 of my buddies up in Canada and they decided to send me a phone each for my Bday (I did not know).

So I literally have 2 unopened phones sitting in my table while i figure this out.

I know damn well the S10+ is a way better phone, But is it really worth it? I Could sell that expensive phone buy something else and keep the A30 which does pretty much all I need it to do.

I dont NEED the S10+ to be honest, It looks fucking amazing tho, The best phone out there IMO, But the A30 does enough to do whatever I need it for.

Im in a big Dilemma, Im going to end up selling one, I just need to figure out which one to sell.

How much would I get for an S10+ in my Country? Probably like 1000\$-1200\$

How much would I get for an A30 in my Country? Probably like 250\$

Any input is appreciated.

Any advice guys? I dont know what to do

Oh man, so nice that they did send you new phone :)

As you just said, you don't need to use s10+.. But if you're asking us here, you aren't so sure what to do.. If I were you, and REALLY hadn't need to use this damn good sgs10+, I would sell it until it's price may drop. But if I get these two phones like you (my bday was 2 days ago btw :P), I would just sell or give someone this A30, and make s10+ my main phone. But.. that may be caused by not having any of main tier phones for a while.. and I'm angry that need to use some android shit :((

Hope you will choose wisely :>

Cheers!
