Thread: [Bein Sports ConnecT Service Lifetime](#)

LuffyKun - June 27, 2019, 1:04 pm

About Us.

A team specialized in searching for site gaps.

How it works ?

You are watching from the official Bein Sports site You now have an official account and you watch like those who have an official account there is no difference, Bein Sports offers subscriptions while we provide lifetime, We designed our program with an easy interface and encryption with all available capabilities to ensure the gap and protect it.

Once Again this is not IPTV or Streaming This is not a NORMAL program

You can compare the broadcast of the program with the official account you will find the same player and broadcast you will find the same thing

Because you are already watching from Bein Sports connect

So we mean what we say

It is a GAP!.

Channels that we offer ?

All Bein Sports channels of MENA,French,Spanish and soon USA & Australia.

Channels work all the time ?

Like We said, The program does not depend on streaming or hosting Such as IPTV, regular broadcast sites and apps Which runs only in time of matches, bad quality and sometimes stop.

The program depends on the official Bein Sports site so you can watch any channel at anytime it is not affected by the number of subscribers This is not our business, This is due to Bein Sports.what happens from updates of Bein Sports also happens in our program.

At sometimes the program is stopped only for maintenance or when Bein Sports do updates so we close the program for while to protect the gap.

Program Requirements.Works only on windows 10.

Net framework which already exist.

There must be Internet Explorer Or Edge Microsoft.

You need a proxy or vpn to watch channels that are not in your country

For example, if you live in the United States and want to watch the French channels you have to install any European vpn program Or proxy. You do not need to install French vpn. Just any European country except the Spanish channels. You need a Spanish vpn.As well in MENA You need Arab vpn.

We don't have android version.

We do not have other platforms.

How to install the program ?

You don't have to install anything.

We will help you to setup everything.

you just need to run the program choose your channel, Enjoy!

Features.

Multi windows ! You can watch alot of channels in the same time !

Quality changer 144p to 1080p, This feature does not exist in Bein Sports connect, Bein sport chooses the quality automatically(auto) while we provide all. you can keep it on auto too.

Audio changer, Change the sound of the commentator.

Remote control app for your phone ! so you can control the program by your phone change the channel, increase volume and change quality etc.
