Thread: [\[FREE\] Astronaut Telegram - Free Market Analysis - Crypto News - Coin Speculation](#)

bobismyname - June 28, 2019, 8:00 am

Astronaut is a telegram channel tailored to cryptocurrency traders. For a while, I have been posting content on tradingview, however a lot of followers have requested a telegram channel as an easy platform to view market analysis and cryptocurrency related news.

What you can find on the telegram channel:

- Free analysis on Bitcoin or other coins on a daily basis.
- Linking to interesting and important news articles surrounding cryptocurrency.
- Updates on major events or market movement that occurs.
- Resources, educational videos on how to trade, etc. that I have made on my Youtube channel / Medium blog.

Join our free [cryptocurrency telegram](#) channel.

I've been following bobs TG channel for a long time.
Would recommend for new and experienced traders.

Been following and lurking since Pure Investments and made alot of quality calls. Probably one of the most experienced traders on this board.

How is this different from PI?

Did you lose a lot of customers this the rebranding?

Your so called analysts are funny, I still remember their "long term calls" on RISE and BPT.

Both died

Pure Investments shut down due to lack of interest on part of the administrative team. Astronaut is a separate platform that focuses more on technology products (discord bots, api's, applications, etc.) and is doing pretty well. Also if you didn't set stop losses, that is your own mistake. We always play things safe and provide levels in which you should get out - so if you listened to our 'funny' analysts there would be no problem. That being said, I don't even know why you are complaining on a free service. This thread is for our free signals and market analysis channel, seems you are a bit hurt on this.

You suppose to set SL for long term?

That's new. Especially when it wasn't stated in a paid premium service that costs hundreds.

Why am I posting here? To warn other members thinking of joining (paid membership) to just save their money instead of wasting it on things like this.
