Dropshipping is definitely possible to make a living off of, but be wary, it is a saturated market and lots of research and marketing needs to go into it.

Camf ? - June 28, 2019, 8:51 pm

Dropping shipping is definitely profitable. There are other methods to get your feet wet in understanding product trends. You can message me if you're interested in more info

Herbo - June 28, 2019, 8:57 pm

Wouldn't expect to make a living off of it right away.
