Thread: [HQ Voiceover native English \(or FRENCH\) speaker](#)

SIM-611976 - June 30, 2019, 9:28 am

Hello,

I have a quick video with around 3 minutes which needs a voice over done by YOU, the task is very easy and I will pay high.

basically you'll describe what you see similar to a YouTube tutorial video but you need to speak English fluently and it's nice if you can speak free (don't need any script or stuff like that)

Most people who have done this before for me dont take longer than maybe 5-10 minutes, so it's almost no work for good payment :)

UPDATE: Also looking for French speakers now

Let me know
