Thread: [Embed another file in .pdf files?](#)

hack3rcon - June 30, 2019, 11:11 pm

Hello.

Is it possible to embed another file in .pdf file? For example, embed .exe file in a PDF file.

Thanks.

Yes, it is possible, there are many binders for that task. If you make a quick search you will find a lot of info and tuts
