What is this?

The hardest part of creating an eCommerce store is finding the niche that will actually bring in sales for you to start profiting. Today we solve that issue for many of you users on Hackforums by offering a product that is not a BS ebook, mentorship, or anything like that. We're offering the exact niche, product, and step by step setup for you to start earning right away, instead of doing hours and hours of research and ending up with no profit. There's only a limited amount of sales of this product due to keep saturation low and to keep profit high for both us and the customers.

What will you learn?

In this course you will learn more than just a method. You will learn how to sell, market, product research, and customer management. Essentially, you are setting up a long term business for yourself with this niche as it continues to grow for many years and don't plan on any downfall of growth. With multiple pages of step by step instructions you can setup with ease and start within the same day of setup!

DOES NOT INCLUDE:

Illegal or maliciousness activity
Virtual Items/Cards
Phone cases/Electronics

Baby Items/Pet Items/Clothing
Subscription Items

Payment Methods:

BTC, STRIPE(CC/Debit), Cashapp, Venmo

FAQ:

Q. Will this show me how to setup facebook ads like yours?

A. Yes. The instructions will show you how to setup and start your ads for the product/niche.

Q. Do I have to keep inventory and ship it myself?

A. No. You will be drop shipping the product.

Q. Is shipping affected by COVID-19?

A. No, the suppliers I provide still sell well and are shipping worldwide. Also since social distancing is big now a lot more users around the world are online shopping now. This would be the best time to start!

Q. Why are you selling this method if you're profiting well?

A. Shopify is an open platform that anyone can use and find information on the internet. I have multiple niches and products I sell on many platforms. I can afford to give an opportunity to users who want to start earning online legally and have a long term business plan.

Q. Do I have to be extremely knowledge with the Shopify interface?

A. No. The guide will show you how to setup the website and products for you to start selling immediately.

Q. How much do I have to invest?

A. Depends on if you want to expand your audience size, based on your budget. On average it's about 5-10\$ a day investment.

Why not? I'm making profit through that and from here selling on how to do it. Saw a need for it in the market, so decided to sell it. Also I want to help people get started on a passive income with research already done, since it's the hardest part of Shopify in my opinion.

Curious on why you'd sell this if you were profiting so much?

Surely instead of giving out the products that are making you \$2000/week for \$35 you'd just use the product yourself and scale?

It's quiet easy to scale high demand products, so giving away one of my niches doesn't hurt me in

Is the niche still profitable? After about a month or two of many people hitting the same niche, it becomes extremely saturated.

How much is profit after costs/adspend?

Can you show earnings proof for the month of July?

I'm very familiar with Shopify stores and how to run them on a daily basis, but as your OP post states, just can't find that niche. A majority of niches become saturated and stop generating revenue after a few months(my problem @_@).

Nebulii - July 31, 2021, 10:14 pm

How much is profit after costs/adspend?

Can you show earnings proof for the month of July?

Any answer? You can bump your thread by replying to my questions instead of spending your bytes ;)

Might consider buying this looks intresting.

Just purchased at the discounted rate. I am very familiar with Shopify and running one. I will update this post, or post a vouch when everything is up and running.

First Initial Edit After Viewing & Setting Up The Ads:

Very good item and it's HIGHLY out of the box. The product & who you're targeting is VERY specific and I'm sure it will lead to some sales. I will check back in around the 1 week mark after it's been running.

OP can you answer this for the people considering purchasing like myself?

So there isn't a lot of people hitting this niche. With every product in a niche, you have to run a general ad to a big populace for some time, then retarget to the specific people that are buying. I'm currently in the general ad phase waiting to retarget.

will you keep giving us new niches, you said lifetime updates, or is it only the included one?

PurpleGalaxy - August 12, 2022, 7:08 pm

Been running this niche for 2 days and already made \$1000 USD, very nice!!!

in fact I have lost \$45 so far, the only person making money is the seller lol

Regards never buying another thing from you bro, and thanks for ignoring me on discord for 2 days.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
