Where are you checking if they are valid? Just tried one and worked perfectly.

PD: Just read the T&C: "Available for bookings made between 12:01 am MT on 08/24/17 and 11:59pm MT on 12/31/19 on the US version of Hotels.com"

I tried them and none of them worked. They're supposed to go under "gift cards", right?

No, my friend. They go under "vouch codes", under the price. (Checkout)

I believe the minimum amount the hotel has to be is 200\$ for this coupon to work.
