My mother is absolutely stupid person. !!!!

She is the system, robot person that thinks the government is always right.

She think if you have 3 Universities, Diplomas you can have the best job with best income

She thinks that Cigarettes and Alcohol should be allowed but she hate when someone talks about Cannabis and she thinks it should never be legalised even Alcohol is worse in terms of health.

She thinks so simple, she thinks so many low things.

She believes everything so easily

She thinks that "happy pills / anti - depressants" are solutions for everything, she prefer go instantly to doctor other than finding the root problem herself.

She doesn't have her own opinion, she always think what others think is right so she will think the same.

I hate her, fuck my mother.
