Thread: [LEAGUE OF LEGENDS LEVEL 30 SMURF ACCOUNTS - EUW ONLY - UNRANKED](#)

Gooked - July 6, 2019, 1:36 am

Currently 50+ accounts in stock, selling individually & in bulk

All accounts are level 30, unranked, 1 champion with 30-32k blue essence to buy the minimum amount of champions needed to play ranked. No account has received a chat ban, suspension or any citation. Summoner names are auto-generated. All of the accounts were bottled to level 30, for transparency. This won't catch up to you unless you type something in-game regarding it.

Price per account: £7 GBP (\$8.77 USD, €7.80 EUR)

Will do generous deals on bulks.

If any account bought is to get banned for any reason but your own, then you'll be provided with a new account within a couple of hours.

Can I have a vouch acc?

I'll update my vouch within a few weeks with the status of it.

I remember buying level 30 accounts before and having them banned within a few weeks due to them being bottled to 30.

Then either your buyer was a retard or you did something stupid. The ban rate is more or less non existent if done right and on unranked accounts. No handouts/vouches. Same goes for anyone trying to use their Ub3r to get handouts

Is it a public and paid bot or a private one?

100% private, a few people max use it. Although I have no clue if any public ones work like it or not
