Thread: [Reactivated the disabled IG account for on-site member for free](#)

123 - July 6, 2019, 7:39 am

So guys, recently I posted this thread in Lounge to check my method to reinstate IG account if they are disabled.

You can find the thread here. <https://hackforums.net/showthread.php?tid=5986822>

An on-site member which goes by alias [My Computer](#) approached me with his IG account which was disabled for violating Instagram Terms. He gave me his IG Username and I sent the request from my end.

Just after 17 hours, it is reactivated again. So yeah, that is quite an achievement.

Here are the screenshots of our conversation.

As far as I know deleted page cannot be brought back. Please send me screenshot of what you get while logging in.
