Thread: [I create unlimited gmail accounts](#)

Ravioli - July 6, 2019, 1:30 pm

If you need gmail accounts then I'm your guy. No, they're not phone verified. I've never had any problems though. I can make the information custom btw. I accept cryptos.

50 cents per gmail account

I will do 35 cents per gmail account if it's a bulk order.

Thank you! ?

What if they ask for the phone number later? I might buy 20 for testing if you could do \$6. I might but 200+ if they're good for my use.

also, would you be able to add my recovery email address in all of them?

Can I use these with third party software to send mass mailing? Gmail allows 500 per account. I'm in need for 40 accounts IF they work.
