This method was only posted today? I would like a little more info if possible. Very interested. I am a sceptical newbie. Can invest at least 200

How many hours per day is optimal?

Thanks ^_^

Thanks ^_^The first one doesn't take a lot of time,the vertex one is flexible,the set up might take a while,if you grind on it the profits will show.

I mostly want to hop onto your trading bot. However I cant until I've made some profit. How long will it take to get around \$200? 2 hours a day is enough to profit nicely?

Can we only get paid via Paypal or we can with other payment methods too? How much work per day is needed and when can we start seeing our first earnings. Please send me more information :)

Mazak82 - July 8, 2019, 7:19 am

Started a contract for Vertex

podster - July 8, 2019, 7:29 am

Does this include any of the following

Social media?

Talking/chatting with people?

Selling, reselling, referrals, advertising ?

evelution - July 8, 2019, 7:29 am

Is the blackhat method included with Vertex illegal?

Hi,

You can be paid via both PP and Crypto. Not much work a day is required at all except for setup (Maybe an hour or two), besides that it will be minor work.

Thanks :)

(Jul 8, 2019 07:29 AM)evelution Wrote: [\[CITE\]](#) Is the blackhat method included with Vertex illegal? The legality is very iffy, but it is not moral. However, there are no innocent victims if that makes sense.

No social media, talking/chatting with people is part of it (It is not eWhoring or SE) no reselling, referrals or advertising. Selling is not a part.

Hey, im interested in this but i would like some kind of more information about the blackhat point you mentioned... can you write me a pm maybe with some more details?

how much time i need to spend a week to earn the 1200\$?

Everex - July 8, 2019, 9:11 am

Fine, i will just delete this, but its a blackhat method? ^^

Good luck with sales.

It is stated that it's Blackhat. Lets hear more information from OP

isvvc - July 8, 2019, 10:47 am

Do you have to be a certain age (18+ for example) for the methods to work?

HSGM - July 8, 2019, 10:54 am

For the two people who have vouch copies, have they posted a review yet?

Mazak82 - July 8, 2019, 12:27 pm

I got both of the methods and all I can say - DO NOT BUY THIS SHIT

Both of the ebooks are ripoffs, word for word.

First method is the public localbitcoins + Paxful method, bought it 2 years ago

Second one is the same method sold here <https://hackforums.net/showthread.php?tid=5983039>

Support is online. We are available for questions.

Joy - July 8, 2019, 12:54 pm

So here's a detailed review of the method after giving a thorough read.

I have received both the basic and the vertex method.

1. BASIC

I would say its a method which i have seen being sold here before. One thing i didn't like was how

OP didn't elaborate the method much so it might be a bit hard for newbies to understand. Op did tell me that he will fix it tho. The method has a bit of a risk to it and right now the minimum u might need to invest to turn a profit is \$75. The method might be a bit hard for people to execute and this is not at all semi-autopilot. All in all i wasn't a fan of the first method.

2. VERTEX

This is the method which was better than the basic one. I didn't see the method being sold here before but i might be wrong. But i did see people execute it before but i never really thought of it. The method has a potential to earn a decent amount. The amount is not fixed so the more effort you put in, the more you earn. The method might take some time to set it up (maybe a few hours or a few days but you definitely won't be able to start it right away) but the money you earn with your time is worth it. The method would probably be greyhat/blackhat but it definitely is not moral hence i am hesitant in trying it out. If you dont have morals i would say its really good. It has potential to earn a decent amount. You won't get financially independent tho. Can't really say more about it without giving away the method.

Thanks OP for giving me the opportunity to review this. Learnt a fair bit from this.

If it is what the guy says it is, don't buy it. Paxful is saturated, and is only profitable if you figure out a way to cash out.

Him and I are speaking over PM, I didn't see a point in posting the same thing when it is already over PM.

He is only speaking of the basic method, and it includes a way to cash it out.

SIM-3601851 - July 8, 2019, 9:48 pm

Just how black-hat is the second option?

We're not talking. Telling me to remove my review for a refund is a joke - you should refund me, apologize and then I might consider changing the review to include something positive.

I don't care about \$40 if it saved others from spending their money on this shit

I have already offered a full refund since it does not work for you, and I did not tell you to remove it.

My refund offer stands regardless of the terms. I am sincere about my refund policy on the OP.

If the second method is the same sold here: [Grey/Blackhat Method - Make \\$2,000+/Week | Refund Option \[LAST Slot\] - Vouched.](#), as Mazak82 points out, I want to outline that this is not just unethical and immoral - it's straight on scamming people.

Absolutely nothing new and "private" about this method, it's a classic scam, with a few twists.
