Snow White Method

Finally... I am releasing the Snow White Method to 12 people.
At \$100 or less, only 12 people will have access this golden goose.

The first three buyers receive a free gift card as follows:

0/1 \$25 SOLD (includes \$50 Restaurant.com gift card code)
0/3 - \$49 SOLD (includes \$25 Restaurant.com gift card code)
1/4 AVAILABLE - \$75 (includes \$50 Restaurant.com gift card code)
4/4 AVAILABLE - \$100

It could almost be called a system because I have combined two secret methods--each of which is worth the price of this guide--which work together synergistically; used together, the combination turns \$4 into \$40 or even \$51 of food value ($\$51 - 92.15\% = \$4$).

Earlier today I shared this with a trusted member on this site, and he said to me,

"tbh, i've seen ppl charge 10x that price for this method."

When I had written this listing this morning, I had no idea someone would or could charge that much for this. Maybe he was overstating things.

Since he told me that, I've not raised the price and I won't raise the price.

In my experience, I have not seen any limit on how many times this can be done in one day. Because of the nature of this, it would seem there is virtually no limit. I've simply never tried to breach the roof because I use this personally for food and not profit.

Before moving ahead I want to state that the seller gave me a free copy to review. I'm not going to favor the seller or consumers and leave my honest opinion on this method I was provided. Now for the review....

This method is about 18 pages long, but the basics of it are covered in about 7/8 pages. The other pages are solutions to errors you might have, other ways you can monetize off this, etc. The thread covers exactly what this method will teach you - how to get \$20-\$40 of food from a variety of local restaurants for a few \$ (yes you can repeat this a ton of times daily). Food can be delivered or picked up from the restaurant.

The method is fairly straight forward and anyone can learn this/start monetizing or benefiting from it in less than an hour of purchasing it. If you're hungry at 7pm, you can be eating by 8pm. Buster and his method taught me some new work arounds for this method and is a very helpful seller. The method covers how to do it for personal use, how to monetize the method, and how to further benefit from it.

For the asking price, you will make your money back very quickly (especially if you order in often). With all this being said, if you don't know any methods on obtaining cheap food, this is worth it. Eating out is super expensive and this will save you tons of money QUICKLY. Avg. meal cost is \$10-15 (not accounting for your siblings, significant others, parents, etc.) Everything from start up time, time it takes to do the method, monetize it, etc. is very quick. Thank you Buster for allowing me to read and review your method and GLWS!

I have tested this method multiple times before and it does indeed work.

*UPDATE: The draft I gave Karma above was at noonday when I thought the most I could stretch \$4 to was \$40.

It's now sundown and it's clear to me the \$4 seed can be stretched to \$51.

Hey, Buster.. what the blazes are you thinking!?
Why are you releasing this method?

Before I discovered this, I had been eating one meal a day--a box of generic macaroni and cheese. After I had ironed out all the wrinkles in this method, I stopped eating sawdust and began to eat better food.

I began to eat more food.

I began to eat a lot.

The remarkable bit about this is that, even though I was eating three times as much food and four times better quality food, I wasn't paying much more...using this system, eating like a king works out to about \$1.33 per day (that's doing the system once, given that the meal, being so large, lasts three days for me).

I was eating much better food and much more food. I was gaining weight. But I was happy.

Recently I returned from my family reunion, and more than one person (well.. nephews, but I think they were speaking the truth) had commenting on my fat belly. So, despite the ease with which I now can have delicious, prepared, piping hot meals delivered right to my door, I decided I'll try to restrain myself somewhat, while also offering this to others so that they can eat better food (or more food if they need...if you want, you can have a week's worth of McDonalds or Burger King or Wendys sent to you for ~\$4).

Can I make money with this?

Yes, this can be used to make money. I haven't done this personally, but my friend is doing it. Details are in the guide. Because I haven't tried it personally, it is a small part of the guide. But I can tell you this much--it's simple and it does not require you to leave your home.

You hold this thing of great value, and you got it cheaper than anyone can comprehend. The only work ahead of you is listing it and selling it in a competition-free arena.

Can this ever get saturated?

I can't imagine a world where this would be saturated. Except the part of it about money making, which I haven't tried. The reason I say the money making part of it may be vulnerable to saturation is because you would be selling, and if 12 of you readers purchase this, you might be competing against one another if you sell on the same platform. At this time, NOBODY is selling this on my favorite platform (including me).

The short answer is, No. The food is plentiful. Because of the nature of this, it would not be saturated even if 100 people were actively doing it.

How much time does this take?

Less than 5 minutes for each \$20 to \$51 load.

Read [\(Click to View\)](#) By accessing this page, you are agreeing to be bound by these website Terms and Conditions of Use, all applicable laws, and regulations, and agree that you are responsible for compliance with any applicable local laws. If you do not agree with any of these terms, you are prohibited from using or accessing this page. The materials contained in this website are protected by applicable copyright and trademark law.

General:

Refund option is available if and only if you reside in the USA or Canada; you will need to message me personally with a clear reason why you are requesting a refund. If you message me "your guide is trash, i wanna refund" (or anything similar to that) you will NOT get a refund and you will get limited support from that point on, because I know this guide is good as I've shown it to reputable members of this site and they are impressed.

I'm not one of those Hack Forums sellers who can their own farts and sell you the can. If you decide to ask for a refund and your reason seems strange, suspect, or anything like that, I will decline your request. You must wait 30 days before claiming your refund option. If you decide to ask for support or help after you claimed the refund, I will assume you no longer want the refund (therefore the 30 day period will reset).

If you don't have the 10 minutes to execute/setup method and you ask for a refund saying "I don't have time for this," "I don't like your method," "This is too much work for me," or anything similar like that, you will NOT get a refund. This method is not time-intensive by any definition, and it is easy. You'll have to provide valid proof you tried the methods and you still aren't able to get it working.

If you are on my Hack Forums ignore list you may not purchase this ebook. If you choose to ignore this warning and yet purchase; you will not be refunded and you will not get any support from me.

Leaving frivolous negative feedback on Snow White Method is prohibited and will result in suspended access to the further support & updates, and no refund will be granted.

Please note that refund option will not be available if you're already familiar with the method. Feel free to ask me any questions (preferably via private messaging so as not to reveal the method) before purchasing so it doesn't happen that you purchase something you already know. Thank you.

I reserve the right to change the Terms of Service without further notice.
My money back guarantee (refund) policy is valid for 60 days; if you request a refund 60+ days after purchase, I will be unable to process your refund.

Claiming refund option = Providing me with proof that you tried the methods and failed, then waiting 60 days for me to process your refund.

Limited Bonus Gifts for The Perceptive Early Adopters:

The first lucky buyer will receive a \$50 Restaurant.com gift code.
The next three buyers will each receive a \$25 Restaurant.com gift code.

It does involve a delivery service, as the food is prepared and delivered to you.

This does not involve buying gift cards.

The Snow White does not used cracked accounts at all.

Vouch review of this product:

One word to describe this guide: AMAZING

I personally have not seen anything like this on the market. Brainbuster is such a genuine and nice guy and I have zero doubts he will be there every step of the way to answer any questions you might have; just like he was for me.

The PDF he sends you literally covers everything and you will completely understand the guide from reading it. I use delivery services regularly because of my busy schedule and this has already been a lifesaver.

I can 100% confirm it is working as I have already done it multiple time. This is very worth the asking price whether you use it yourself or decide to sell the accounts you will be extremely happy. Between the helpful support and unique way this method is approached, I couldn't recommend it more!

Also want to know the answer to the question above.

Respectfully, Gatt, I wouldn't know how to write an 18 page ebook on that topic.

Brainbuster - July 10, 2019, 2:48 pm

Give me a name of a member more reputable than the previous reviewers. I'm happy to oblige.

There was a question on the first page about whether this involves SE.

I messaged him and this does NOT involve SE (I didn't understand the question at first).

Regarding the latest question, the method does NOT involve paying for food and then refunding the money (though something close to that is mentioned as a bonus addendum at the end of the book).

Brainbuster - July 10, 2019, 3:41 pm

It is sort of related to referrals, but not in a way you know of else I wouldn't be selling this, and everyone would be eating like a king already because it's this easy.

My apologies. As this is my first sales thread (in any forum), I'll try to reply faster next time. It's just me and this isn't the only thing on my plate right now. Also was communicating with a member who wants to purchase the first copy.

I'm very interested in this method. I don't really care about how it is done or what specifically the method is. As long as it works then we are gravy ;) My only question is. I live in a smaller city. We don't have too many restaurants. Will this work in my area? We do have delivery services like Waitr, and I believe uber eats but other than that, I don't understand if this method will work for me. Thanks!

Brainbuster - July 14, 2019, 8:25 pm

Good question, luvbadacid. If you'd like, I can check to see whether it'll work for you. If there aren't nearby restaurants then it won't work.

Brainbuster - July 27, 2019, 10:51 am

All buyers so far have been satisfied and have been either eating well/eating cheap, or making money from this.

For a technical issue it did not work for one buyer.

I promptly suggested a full refund. Unlike with other sellers on HF, the buyer didn't need to request a refund--I suggested it and issued a refund to that buyer within 30 minutes of my becoming aware of the issue.

Thank you to all customers who took a chance on me, as this is my first sales thread (not to mention the first book I finished writing).

Snow White Method

Finally... I am releasing the Snow White Method to 12 people.
At \$200 or less, only 12 people will have access this golden goose.

The first buyers receive a free gift card as follows:

0/1 - \$25 SOLD (includes \$50 Restaurant.com gift card code)
0/3 - \$49 SOLD (includes \$25 Restaurant.com gift card code)
4/4 AVAILABLE - \$75 (includes \$50 Restaurant.com gift card code)
4/4 AVAILABLE - \$200

It could almost be called a system because I have combined two secret methods--each of which is worth the price of this guide--which work together synergistically; used together, the combination turns \$4 into \$40 or even \$51 of food value ($\$51 - 92.15\% = \$4$).

Earlier today I shared this with a trusted member on this site, and he said to me,

"tbh, i've seen ppl charge 10x that price for this method."

When I had written this listing this morning, I had no idea someone would or could charge that much for this. Maybe he was overstating things.

Since he told me that, I've not raised the price and I won't raise the price.

In my experience, I have not seen any limit on how many times this can be done in one day. Because of the nature of this, it would seem there is virtually no limit. I've simply never tried to breach the roof because I use this personally for food and not profit.

[/s]

TESTICLEMONIALS

*UPDATE: The draft I gave Karma above was at noonday when I thought the most I could stretch \$4 to was \$40.

It's now sundown and it's clear to me the \$4 seed can be stretched to \$51.

Hey, Buster.. what the blazes are you thinking!? Why are you releasing this method?

Before I discovered this, I had been eating one meal a day--a box of generic macaroni and cheese. After I had ironed out all the wrinkles in this method, I stopped eating sawdust and began to eat better food.

I began to eat more food.

I began to eat a lot.

The remarkable bit about this is that, even though I was eating three times as much food and four

times better quality food, I wasn't paying much more...using this system, eating like a king works out to about \$1.33 per day (that's doing the system once, given that the meal, being so large, lasts three days for me).

I was eating much better food and much more food. I was gaining weight. But I was happy.

Recently I returned from my family reunion, and more than one person (well.. nephews, but I think they were speaking the truth) had commenting on my fat belly. So, despite the ease with which I now can have delicious, prepared, piping hot meals delivered right to my door, I decided I'll try to restrain myself somewhat, while also offering this to others so that they can eat better food (or more food if they need...if you want, you can have a week's worth of McDonalds or Burger King or Wendys sent to you for ~\$4).

Can I make money with this?

Yes, this can be used to make money. I haven't done this personally, but my friend is doing it. Details are in the guide. Because I haven't tried it personally, it is a small part of the guide. But I can tell you this much--it's simple and it does not require you to leave your home.

You hold this thing of great value, and you got it cheaper than anyone can comprehend. The only work ahead of you is listing it and selling it in a competition-free arena.

Can this ever get saturated?

I can't imagine a world where this would be saturated. Except the part of it about money making, which I haven't tried. The reason I say the money making part of it may be vulnerable to saturation is because you would be selling, and if 12 of you readers purchase this, you might be competing against one another if you sell on the same platform. At this time, nobody is selling this on my favorite platform (including me).

The short answer is, No. The food is plentiful. Because of the nature of this, it would not be saturated even if 100 people were actively doing it.

How much time does this take?

Less than 5 minutes for each \$20 to \$51 load.

General:

Refund option is available if and only if you reside in the USA or Canada; you will need to message me personally with a clear reason why you are requesting a refund. If you message me "your guide is trash, i wanna refund" (or anything similar to that) you will NOT get a refund and you will get limited support from that point on, because I know this guide is good as I've shown it to reputable members of this site and they are impressed.

I'm not one of those Hack Forums sellers who can their own farts and sell you the can. If you decide to ask for a refund and your reason seems strange, suspect, or anything like that, I will decline your request. You must wait 30 days before claiming your refund option. If you decide to ask for support or help after you claimed the refund, I will assume you no longer want the refund (therefore the 30 day period will reset).

If you don't have the 10 minutes to execute/setup method and you ask for a refund saying "I don't have time for this," "I don't like your method," "This is too much work for me," or anything similar like that, you will NOT get a refund. This method is not time-intensive by any definition, and it is easy. You'll have to provide valid proof you tried the methods and you still aren't able to get it working.

If you are on my Hack Forums ignore list you may not purchase this ebook. If you choose to ignore this warning and yet purchase; you will not be refunded and you will not get any support from me.

Leaving frivolous negative feedback on Snow White Method is prohibited and will result in suspended access to the further support & updates, and no refund will be granted.

Please note that refund option will not be available if you're already familiar with the method. Feel free to ask me any questions (preferably via private messaging so as not to reveal the method) before purchasing so it doesn't happen that you purchase something you already know. Thank you.

I reserve the right to change the Terms of Service without further notice.

My money back guarantee (refund) policy is valid for 60 days; if you request a refund 60+ days after purchase, I will be unable to process your refund.

Claiming refund option = Providing me with proof that you tried the methods and failed, then waiting 60 days for me to process your refund.

Works. Did it today. Hurry up, get to 12 copies sold, and stop selling this.

My review:

Quality 10/10

Its 18 pages going through every detail. Buster has also answered every question I've had.

Ease of use 10/10

The book goes over literally everything. Making it super easy to follow. Follow the steps, eat food super cheap.

Profitability 9/10

It's actually a 10/10 for me. However not everyone will be able to make money or eat food super cheap. With that said, 98% of you should be able to and I'm sure Buster can answer your questions.

I'm a nobody here. Only interested in making money. I hardly chat. I've bought 5 or 6 "make thousands" ebooks and I regret almost all.. I do not regret buying this book guide at all..

Please see the second page of the thread where this and other questions from curious members were asked (and already answered).

I'm happy to answer questions, but I won't be answering any further questions pertaining to the method (what it is or what it's not).

Btw, I've also answered every question in every private message I've received (you haven't sent me any).

This is not another book to collect and put on your shelf so that you know '101 ways to make money' instead of the 100 you already know--this is something I use and everyone who owns it uses (except one guy who I refunded because it didn't work for him).

gilgamesh007 - August 15, 2019, 6:09 am

Buster is the real deal. Guide is easy enough, detailed, and provides adequate privacy for the user to avoid any unwanted attention (so far at least). I've been eating a lot of chipotle in the last week...

YoungSom3a - August 15, 2019, 1:06 pm

I've bought the method and read through it all. Will actually do it later. But the method looks very promising and easy to do! There's no reason it wouldn't work.

I'd give the method 9/10 as it can be thought out. But it's absolutely new to me tbh!
Huge vouch for BrainBuster!!

2 copies at \$75 sold, so 2 copies remaining at that price.

PMed you. Yes, it works in Orlando, FL.

Following is another review from someone who bought this at \$75 (can't put it in the OP because I've reached my edit limit).

He said more kind words to me in Discord, but here is a snippet:

"Buster I thought long and hard about that and I'm mad at you
You could make \$40 for 8 mins work every time.
Yeah, this exploit is absolutely godly. I got me and my fiancé some absolutely incredible \$100+ dollar steak and lobster to celebrate this working.
thanks for feeding me

I talked to my girl about this and she agreed whole heartedly not to review because we don't want to saturate it my guy...

Why would you risk this method for absolute chump change in the long run of the potential value of this exploit.

As in saturate from the testimony I could provide :/

That would increase sales etc etc

It's like the best compliment in a way because youre such a hook up but I just hope you can see from my perspective"

In short, he feels reluctant to leave a positive review because he doesn't want more people to get in on this!

I understand his point of view, but I don't share it because I don't expect this to get saturated from just 6 more people doing it.

\$hady - August 18, 2019, 2:45 pm

So what's available still? I'd pay the \$49 if it's still available. LMK OP
