seriously? users here selling them for \$11-\$15 max. I myself purchased one at \$9. you might want to run a few searches?

also, using the bot may surely result in your precious account suspended at some points. so my advice to the streamers is to stay safe.

Well first of all I just wanted to say that Affiliate Accounts are the least important service I am offering and I debated not even selling them. I do see that 50 is way too much and will most likely drop it to 15-20, depending on the number of followers, views, streams, and age. Also I can guarantee NO ACCOUNT will ever get suspended from any of my services.

hey dude-

are your viewers on proxies, or are they all running off one ip? The issue ive had with bots in the past is that twitch doesnt count them to the current viewer count if they are all coming from one ip.
