[ONLY \$1] [REBUILD \$0,5]
Simple Monero (XMR) Silent Miner
Startup - Semi FUD (3/22)

NOTE: All softwares used to make this miner is free.

The \$1 value we charge, is a symbolic value for our work to utilize what we have the best, to make the best and cheapest miner possible.

In tests carried out by me, using private methods of spread, I was able to reach up to 160 active slaves at peak times with only 10 days of spread.

The average hash rate is 40h/s per slave, using 20% of the cpu.

Before anyone comes to complain about what I'm offering, I say that this product is only meant for people who are just starting out in this business, people who do not want to have high costs on their software.

THIS MINER IS 100% FUNCTIONAL AND PROFITABLE, A MEDIUM - LONG TERM. IN THE TESTS CARRIED OUT BY ME, THE MINER WORSHIPED VERY WELL FOR A MINING MADE FROM FREE TOOLS.

HOW TO MAKE YOUR ORDER?

Send me by private message the following data in SAME FORMAT:

(Required)

After sending the message, wait that I will give you the information for payment, after which your miner will be made and made available within a few hours, usually minutes.
