Hey mate, I've had some successful shopify stores in the past. If you're looking for vouches, i'll happily set up a store and try out your targeting and leave a detailed, we'll thought out review.

Why are you from Poland and show a store in NOK and GBP?

Also, considering your previous activity (botnets, ewhoring), I don't think you suddenly are an 'experienced dropshipper'.

And now the font is different and you don't have the 'favorites tab'. :)
