I bought the ebook like 4-5 days ago and boy oh boy i wasn't expecting this at all (this was also my first time ewhoring)

The ebook is well made and it covers the basic of ewhoring + method, but the best part is the mentoring group on discord !

I gathered there the majority of the information there and all member are really helpful !

This is my review on CaptainSpaulding's ewhoring method !

I purchased it today, and this is a method I've never seen before. It's really easy to setup and OP is providing a really good support through Discord. This method doesn't require any additional money investment. Although, you'll need a bit of time to set it up properly, and a bit of time everyday. But it could be pretty much autopilot.

I'll make my money back quickly with no doubts as this method is not saturated at all. You can be really selective on the people you wanna target, so no more intempestive dickpicks or harrassment from perverts.

Shoutout to CaptainSpaulding for selling an actual unsaturated method and for providing quality support !

EDIT: Made my first 20\$ sale, made my money back already.

swami - July 15, 2019, 8:12 pm

SWAMIS REVIEW I purchased this ebook at full price and this is my honest review.

METHOD:

This method is one I have seen people using for many years but is very unlikely to be saturated due to the number of horny guys and is much more HQ than other methods. This is especially good for beginners because of the amount of detail put into the book. It is very easy to follow and repeat. The

main downside I would say is if you are an experienced e-whore you may already know about this method.

SUPPORT:

Captain is super quick and detailed in his responses, I have learned a thing or two from him already.

OVERALL:

Overall this method is not exactly groundbreaking but I would recommend this method if you are a beginner, especially if you purchase the mentorship portion. Captain guarantees a refund if you do not earn so there's no reason to not give it a shot In my eyes :)

RATE:8.5/10

I will update with earnings after using this method.

It's probably the first of a long series.

Method

This method is on a platform which I have never even considered while trying to eWhore and well, I had my doubts. However after just one single day of trying to build an audience I was able to generate my money back plus some. It is extremely easy to setup and takes minimal time every day just depending on how much you are trying to make. The customer base is great, however be picky who you target, but if done right customers will purchase several times from you. This method is essentially unsaturable as the user base is just far too large.

Support

CaptainSpaulding is helpful when necessary during the process. Initially I had a few questions as to where I should refer to in order to be the most efficient with this method and he was always willing to help me out to the best of his abilities. He's very friendly and responds in a timely manner.

Should you buy this?

Absolutely! If you do not make your money back, it is 100% your own fault and lack of care. I did it in less than 24 hours and made well over the \$35 investment.

My apologies to this guy, it wasn't him, he is a really good person. He gave me his eBook for free because "This is me taking care of someone who got fucked over, go make your money back bro".

I am so sorry for this inconvenience, i got scammed by an asshole and blamed this guy. U can really put your trust in him, he's a G.

I'll come back with a review on his method once i read it, have no doubts that it's great.

I've accepted the contract. Though that deosn't reflect the amount left. As I've changed the way the mentoring works as well as figured this method is completely unlikely to get saturated. The user base is too large. But I can't edit the thread again until my sticky is put up lol. Looking forward to doing business. ?

You could use a razor from 2007 and still do this method. ?

But really, no extras are needed. One app/website will take care of it all. And it's not resource heavy at all.

It will work months and years from now. And the guarantee is only for premium. And it's 2 weeks. You have 2 weeks to make your money back before I will issue a refund.

Just realized i never posted on here after buying....

About 3 days after purchasing this E-book I haven't broken even yet but I've probably made about 40\$ from it so far and it grows exponentially... as in by next week I can see myself bringing in 100-300\$ a day, and theres so many ways you can use this method to increase your profit that I haven't even tried yet.

Also not to mention I was a complete beginner and had 1023029 questions and literally everyone in the discord group was super nice not only staff but other buyers as well, definitely worth it to get the extra support I wouldn't have had any success or less success if not for them.

Huge vouch for this!

I saw this thread when it just got posted. I thought you were planning to sell only 5 copies? (;?_?)

Tactics I guess? to create scarcity?

Price raised too.

No. I was only selling 5 copies because I was going to have to do mentoring 1 on 1 with all buyers. But it turned into a group chat where I now have others who help me mentor so I can take in more people. And the price raised because people who bought it suggested it. One guy made 2k in a week. I'd say that's worth more than \$35. Please keep your mouth shut since you obviously have no idea what you're talking about. Thanks ?

+Big Vouch for my guy here

I bought the ebook like 4-5 days ago and boy oh boy i wasn't expecting this at all (this was also my

first time ewhoring)

The ebook is well made and it covers the basic of ewhoring + method, but the best part is the mentoring group on discord !

I gathered there the majority of the information there and all member are really helpful !

Proof of my first payments after a few days of hard work : <https://imgur.com/a/vnBHNk9> (delete the space)

Hey, I want to buy it but can barely afford the basic one, Should I get it?

(Jul 15, 2019 08:12 PM)swami Wrote: [\[CITE\]](#) SWAMIS REVIEW I purchased this ebook at full price and this is my honest review.

METHOD:

This method is one I have seen people using for many years but is very unlikely to be saturated due to the number of horny guys and is much more HQ than other methods. This is especially good for beginners because of the amount of detail put into the book. It is very easy to follow and repeat. The main downside I would say is if you are an experienced e-whore you may already know about this method.

SUPPORT:

Captain is super quick and detailed in his responses, I have learned a thing or two from him already.

OVERALL:

Overall this method is not exactly groundbreaking but I would recommend this method if you are a beginner, especially if you purchase the mentorship portion. Captain guarantees a refund if you do not earn so there's no reason to not give it a shot In my eyes :)

RATE:8.5/10

I will update with earnings after using this method.
Have you earned money yet?

1. Yes, exchange rates apply though. You'll need extra AGC to cover that.

2. No extra investment is necessary at all.

3. Right now, it automates the traffic for the method. But it's getting updated to do more in the next few days. And even more features are planned. Can't say too much without giving method away.

Look forward to hearing from you ?
