Thread: [\(XSS Challenge\)](#) [\[Medium\]](#) [\(XSS Challenge\)](#)

frank3nstien - July 13, 2019, 11:29 pm

Since Long time I haven't seen any XSS challenge, seems like golden times of SQLi and XSS it slowly start dying, before XSS was be a "big find" haha. ?

So i thought let's restore everyones mind with one XSS challenge.

Target: aHR0cHM6Ly93d3cuYWVnb24uY29tLw== (Use Base64 decoder)

PM me your payload with complete string will add you below in Winner list of 2019 ?

POC:

Winners of 2019: ?

- 1)
- 2)
- 3)
- 4)
- 5)

Lol you really trying to get other people to find vulns so you can submit them to Aegon's responsible disclosure program? Jesus Christ.

If you have an answer, go submit it here and potentially get paid, leave the skid to find his own shit
[Responsible disclosure | Aegon](#)

I am not interested to report whoever are they i just took it for random, however i already showed my answer on the post you dumbass open your eyes.

I sense you don't have ability to find it so just leave it and ignore my post.
