Divi is The Most Popular WordPress Theme In The World And The Ultimate WordPress Page Builder.

Build Visually

Divi Takes WordPress To A Whole New Level With Its Incredibly Advanced Visual Builder Technology

You've never built a WordPress website like this before. Divi is more than just a WordPress theme, it's a completely new website building platform that replaces the standard WordPress post editor with a vastly superior visual editor. It can be enjoyed by design professionals and newcomers alike, giving you the power to create spectacular designs with surprising ease and efficiency.

The Future of WYSIWYG

Drag & Drop Building

Add, delete and move elements around on the front end of your website. No coding and no confusing back end options.

True Visual Editing

Design your page in real time and see the results instantly. Create and customize your pages using intuitive visual controls.

Custom CSS Control

Developers can easily combine Divi's visual design controls with their own custom CSS. Divi's interface is simple yet not limiting.

Responsive Editing

Building beautiful responsive websites is easy. Divi is responsive by nature and also gives you full control over how your website looks on mobile devices.

Design Options Galore

Enjoy dozens of unique page elements and thousands of design options. Divi gives you full design control over your website.

Save & Manage Your Designs

Save and manage unlimited custom designs. Easily re-use them to jump-start new pages. Create advanced design systems and streamline your workflow.

Inline Text Editing

Just click and start typing! Editing your page has never been this easy. Draft pages on the front end and see the results instantly as you type.

Global Elements & Styles

Manage your entire website's design using global elements and website-wide design settings. Divi isn't just a page builder, it's a website design system.

Undo, Redo, & Revisions

Divi works like a modern software application. Easily undo, redo and travel through your entire editing history. If you make a mistake, Divi has your back.
