Apparently she led him on because I already know what kind of a girl this is I know girls like her that do the exact same shit and they just play around with boys but he's clearly fucked in the head and took it too serious.

Of course he is insane, But it is related to her not liking him and "using him" The way he killed her and the pictures he took shows that it was an emotional kill and pre meditated. Let alone try to kill himself afterwards.

It was a horrible act.

Frankly, this is bound to happen again and again. Social media has changed people, guys and girls

alike.

Girls will flaunt themselves freely for quick and easy fame; guys will drool over girls that do such things.

Then when some crazy guys get rejected they'll do insane things like this dude. Sad world we live in.

Edit: just saw a screenshot a message Bianca sent to the guy. Said she had sex with 6 guys already, and that the guy (killer) didn't mean anything to her and she forgot his name and wanted to ghost him.

Yikes.

How many people get brutally murdered though? Not many. Most people die in car accidents, or from heart disease and cancer. They don't get beheaded like we are in the 18th century.

Scientists say that after death there is nothing. So when you murder someone, you take everything he has. His whole world. His existence. What that guy did is not justifiable. He took a whole life over some insults.

yogibear - July 16, 2019, 10:54 pm

In this story it says he killed himself.

"32 y/o Matthias Schoormann was a metal head, computer geek and weapons fanatic from Leer in Northern Germany.

He was a member of a local Black Metal band called Carpe Noctem and was desperately in love with 27 y/o medical assistant Bianca Brust.

Unfortunately for Matthias, Bianca did not reciprocate his love.

Try as he did, Bianca kept repeatedly turning him down, breaking his Black Metal heart each time.

On February 20, 2008 Matthias Schoormann made his last attempt to win Bianca's heart.

As had happened each time before, Bianca showed up only to break his Black Metal heart again. Somewhere in that desperate struggle to impress her, as Bianca once again pushed him away, things got out of control resulting in a struggle out of which Schoormann came out as a winner – no shit with his size and strength advantages.

Schoormann strangled Bianca to death.

As her body lay there lifeless, he decided to do what would have resulted in Bianca giving him a finger had he suggested it before.

Matthias played with Bianca's corpse but first applied a little Mexican drug cartel style beautification treatment by severing Bianca's head.

It was a well known fact that Matthias had a collection of weapons, including swords and machetes but what he used to behead Bianca and whether he struggled as much with the spine as we see in near every beheading video may never be known.

From the photos it would seem that the decapitation was fairly flawless and not much messing around took place.

He either got lucky by finding the right spot quickly or knew what to do.

With the beheading behind him, Matthias Schoormann posed Bianca Brust's headless corpse and took sexy pictures of her.

Strangely enough, police investigation into the case confirmed that no post mortem coitus took place.

All Matthias did was play with her body as he was posing her up, but never fucked her not in the snatch, not in the pooper, not even in the mouth of that severed head.

You would think that after wanting her so much, and eventually having her in a spot from which she could no longer tell him NO, he'd tap that ass but it never happened.

Maybe he felt distracted by neighbors walking up and down the hallways?

At around 1am on February 21, 2008 Schoormann logged into a forum he'd been a member of for a long time but never posted on and started a thread titled "Dead Whore" in which he posted the pictures of Bianca's posed up, decapitated body and her severed head.

Most responses the thread received were exactly what you'd expect from the interweb: "Fake", "OP is a faggot", etc.

Forum's owner then sent a private message to "I H8 U" which was the username Matthias used asking him who he was.

Matthias responded by removing all the images from the thread and disappearing never to show up on that or any other forum again.

After the forum fiasco, Matthias Schoormann set his apartment on fire and dashed away in his red Ford Escort with Bianca's severed head in a backpack.

An attentive neighbour noticed the fire and a suspicious escapee and quickly alarmed both the police and firefighters.

The authorities found Bianca's headless body in the apartment but before they could do anything, they learned that Matthias deliberately drove his Ford Escort at a high rate of speed into an oncoming truck, killing himself on the spot with the backpack holding Bianca's severed head next to

him.

There are a million and one psychological evaluations of Matthias Schoormann all over the internet. Everybody is a muthafuckin expert knowin exactly what kinda guy he was and what not – which only confirms what I have said many a time – psychologists know absolutely nothing about a human psyche.

Nobody has a fuckin clue who this guy was and what he was going through.

It's laughable really, but I like to laugh at idiots so I'm leaving everyone with what's out there."

where did you get the info that she "blackmailed" someone? not saying I don't believe you, but if you have any info on it then please post it.

It's known that she used to frequent 4chan and sold lewds/nudes there. Screenshots came out showing how she told a guy (that she cheated on) how she just "used him for some time"...so she's definitely not the greatest person to look up to, but can you give more info on the blackmail?

There's no "concrete" proof but shit has been coming out the past few days about her selling her (underage) nudes and she's a drug addict too.

I'll take the blackmail claim without any concrete proof tbh she was a fucking mess and has done it since she was 15 years old. Just waiting for some non-pussy to post the full logs now

The dude could have just shot her in the dome instead of trying to chop her head off lol. Without the beheading, this story woulda cruised right under the radar.

Also I gotta ask.. did her head actually come off of her body? The pics I saw were just of a gash in her neck from an attempted beheading.

I talked to this girl ~2 years ago and it is true that she used to manipulate lonely guys online into falling in love with her and then she would take advantage of them. I still can't believe this happened.

^Logs of her and an ex

I personally never had a bad experience with her but we stopped talking and then fast forward 2 years later i find out about this. Life is crazy. I'm glad i never became close.

She did a lot of dumb shit in the past but she was just a kid. She was killed at 17 years old which means she was 15/16 during that time. She was bettering herself recently and seemed a lot happier. This could've been easily prevented if she wasn't an attention whore online. None of this should've happened. I hope this is a wake up call for some of these "e-girls".

Also the edgelord who killed her slit his own throat and survived. Even posted pics of his self bleeding out on snapchat. Wtf how??

I didn't even know who this girl was and I saw a HF post the other day ans I got curious because the internet is gross, so I looked up her story and there is a lot of back story dating back a couple years on those geeky, gay ass chan sites, and basically yeah a bunch of people were always getting mentally fugged by her it seems and even an HF member here above us just posted that he talked to her during the period when she was fugging everyone over.

"teens - military aged men to become depressed as shit and threaten them with blackmail of their nudes to their family/wives."

You seem so hurt LMFAO this must be personal for you. ?

There's a whole section on HF dedicated to E Whoring it's nothing more than another finesse

Roastie with no future is dead and a murderer is gonna be asspeevied by tyrone in prison. I see only good things here.

Agreed. I'm not seeing the problem here?

(Jul 17, 2019 06:44 PM)forbidden Wrote: [\[CITE\]](#) Girls/guys that do shit like that deserve nothing but a swift death.

Now that's just edgy. She doesn't "deserve" to die but I agree nothing of value was lost

I'll take the blackmail claim without any concrete proof tbh she was a fugging mess and has done it since she was 15 years old. Just waiting for some non-pussy to post the full logs now

We just making shit up now this really is IncelForums lmfao

Mutiny - July 17, 2019, 10:17 pm

I saw the photo and that shit was fucked up, she didn't deserve to die regardless of what she did or didn't do and then to post photos to her instagram is just sickening.

These subhumans will eventually grow up to be mothers and the cycle continues. Every generation says the next generation will be much worse but since the introduction of the internet it's really getting out of hand and enabling thots like Bianca do to their thing on a much wider scale. Shits fugged

She wasnt beheaded her throat was sliced open halfway and the sucker who sliced her up called it a day I guess. Sad shit but play with fire and you get burned I suppose. Building an army of incels with nothing to lose and then turning them against you isn't a very bright idea

Ahh, hell! The perpetrator was one of those angry, embittered incels? Normally I love encountering the occasional one online because it's like seeing a new exhibit at the zoo, but now I'm going to be more cautious. Vile, soulless demonic virgins.

He didn't chop her head clean off, just slashed her neck open on the right side. Some people are born with mental issues it's unfortunate he didn't get the help he needed. He also slit his neck open but not deep enough to kill himself he's fully recovered.

Well given the fact that he has claimed to people in her server that he has pornographic images of her, and she was under the age of 18, he's gonna get fucked up in prison. You know they're going to charge him with that shit.

well then her age is 17 and one of screens is to her killer, other is from 2017 which is 2 years ago. it means she cheated on many guys when she was just 15. that's insane

this shit is sick hope he dies and gets raped in prison, even tho she probably also belonged in a psych ward no one deserves to be half beheaded (pedos do).

Where is the info on him slitting his neck? He did hack her head pretty damn well with the knife though. Not that I support him.

I guess this is a stern reminder to us all to not ignore the red flags and our gut feeling.

The fact that he beheaded her shows a clear lack of remorse..

Apparently the guy was good friends with her and her mom. They got into a big argument and he ended up killing her, the only lesson here is to not mess with people who have serious mental issues you gonna get killed.

Also privacy goes a long way. Literally no one knows where I live (except the utilities company and real estate), if I was ever in a situation where I was in an argument like that and someone wanted me dead, they wouldn't be able to find me.

The problem is most people don't value their privacy and therefore, their safety is in jeopardy.

But completely disregarding privacy, there surely had to be major red flags with this guy prior to this occurring
