Thread: [Blockchain Learning Syllabus - How to Learn Blockchain Technology](#)

Vinster - July 15, 2019, 7:55 pm

Hi all,

I was browsing linkedin and saw that somebody put together an ordered list of items to learn about blockchain tech. It is pretty geared towards people with some math and coding ability. I saved it to a pdf to share here.

In my own opinion it's really important to understand the underlying tech behind various coins, as it gives you a major boost in assessing how well a given blockchain can actually be useful for the problem it is trying to solve, vs a fluff project.

Comment on this and I'll PM you the link.

Cheers ?
