Thread: [User Titles not updating?](#)

**Mutiny** - July 16, 2019, 11:56 pm

Hi all,

I've tried to do some digging to find out why this is but can't find anything. These are apparently the current user titles:

Quote:0 posts - nobody@HF  
50 posts - user@HF  
250 posts - bin@HF  
1000 posts - www@HF  
2500 posts - bind@HF  
5000 posts - ssh@HF  
10000 posts - root@HF  
25000 posts - gawd@HF

Mine is bin@HF however I've got 1,745 posts. That means I should be www@HF instead, correct? wondering why it hasn't updated.

That list is not correct.

Do you have a current list of the new one? if they're still a thing
