willing to give a discount on first copy bro

Southside - July 17, 2019, 10:35 pm

Are you selling accounts instead of method?(interested in trying one before making a deal for method itself).

Can market same site with different FB Ads accounts?

Thanks

Yes, if you need to test an account we can make a deal.

Yes, you can market same site/page/post with different FB Ads accounts.

I guess you have mixed me with Facebook Ads. He bought the method from me and started selling accounts, I don't take responsibility for his actions even though its my method.

Thank you for clarifying this to him. Although, that user bought the method from me and started selling accounts, I don't know what happened to him.

jasonleto - July 18, 2019, 9:20 am

Okay my mistake, the problem was he was never able to deliver accounts with your method. Does it still work?

What are my total costs? Can i create the accounts on a aws vps?

The method works perfectly fine, and has been working for over 2 years. As I mentioned earlier, I don't know his work ethics and I am not responsible for his actions just because he is using my method.

Total cost is a monthly \$40 payment.

You don't need a VPS, you can even create these accounts using your personal mobile device or PC. But, yes, you can also make them using AWS VPS.

No, it does not involve VCCs. VCC only gives you \$25 threshold, you cannot spend more than \$25 on a fresh account using a VCC.

No, I haven't done anything wrong. How could I do anything wrong? When it's literally 15 steps, most of it about setting up a program. This isn't sales trashing. Someone literally asked about waiting for reputable members to leave reviews. Part of our agreement was that I left honest feedback.

Will do but I highly doubt it. I've had the method for over a week but no matter how many times he's tried helping me, nothing works. Part of our agreement was that I left an honest review for a discount.

I'll leave my review here then :).

Method is only around 15 steps or so so pretty easy to follow. I'll start off with what he includes in the method.

1. HOW TO CREATE SAFE/BULLETPROOF FRESH FACEBOOK ACCOUNTS - Every account I made hit a checkpoint block. Admittedly, two of my accounts were my fault however I made around ten accounts after this and none worked.

2. HOW TO SETUP AD ACCOUNT AND GET \$400 FREE ADSPEND - Method does show this and explains it well. It's at this part where I was getting checkpoint blocked.

3. HOW TO MAKE THE AD ACCOUNT RESISTANT TO BANS/CHECKPOINT BLOCK - Refer to point 1. Either the method he's supplying is old and outdated information, or was just a load of bullshit.

TAKES 5-10 MINUTES TO SETUP ONE ACCOUNT - It does take around 10 minutes to make an account if you're quick.

WORKS 100% OF THE TIME - Worked 0% of the time for me.

NO NEED FOR ACCOUNT WARMUP/FARMING - If I'm honest, it does.

NO NEED FOR AGED ACCOUNTS - I even bought a \$14 aged account which was getting checkpoint blocked too, even after following the steps on how not to get blocked.

NO BLACKHAT ACTIVITY - Borderline tbh. Facebook wouldn't exactly be happy you're doing it and I wouldn't like them to turn up at my door asking for money lmao.

To conclude, method looks like it should work, but doesn't. When you write something negative here, he instantly stops giving support. I did miss his message on Wednesday which I apologised for, but people have asked me through PM's loads asking if the method worked so I couldn't exactly lie on the thread. You did ask for an honest review after all :^).

RandomGuy™ - July 27, 2019, 3:44 am

Damn, I was about to buy it, but now I am very hesitant. If you want sales, walk Nath through all the steps one by one, maybe do it for him through Teamviewer, but if he can't get it to work, then this just seems too good to be true.

Why would you be selling this, if you can literally make back at least \$200/account with dropshipping, not even hard to do.
