Thread: [SPOTIFY | BUY STREAMS | QUALITY PRICING](#)

JoahTheron - July 19, 2019, 1:13 am

Frequently asked Questions

When will the streams start after purchase?
It will take up to 48 hours.

How do you distribute the streams to my songs?
We will distribute the bought number of streams in a period of 30 days, to prevent bans.

Can I get banned from using your service?
Yes, you can. However, bans are unlikely.

How much does Spotify really pay?
Since spotify pays out 70% of their total earnings to all streams made in the month, it fluctuates. Typically it is between 3 to 5 \$ CPM.

Why are you so expensive compared to other services?
Because our system is unique compared to all other services which drastically decreases the chances of a ban. Also, most, if not all, of the hits you will receive come from Premium accounts, which means you will get an average CPM of about \$4.

Terms of Service

1. We can't guarantee anything, except for rule 2!
2. We guarantee you that we are doing our best possible to keep it working even after major changes from spotify.
3. Bans do happen, although they are not very common, so don't invest more than you can afford to lose.
4. A purchase is not refundable after we have started delivering. If we are unable to fulfill your order, we will issue you a refund / partial refund (if order was partially fulfilled) [contract=tid]Start Contract[/contract]
