One of my biggest issues with Shopify dropshipping has been traffic. I haven't hacked FB traffic to make profits. Will I achieve this with your course?

Yes you will indeed. Most of the time it comes down to something on the ad - the ad creative, the ad copy. If not, it could be the website itself or the product you've chosen. Another way to increase profits from FB traffic is to create long-term funnels, which I describe in my course. So of course, you'll be able to achieve profit with my course and I'll personally go through your ad sets and help you scale your store.

Thanks for the response. I know funnels can be very profitable and sustainable long term. Will be back.
