Thread: [Cartoony HF Banner - Super Omni - Day and Night version](#)

Novica - July 19, 2019, 1:34 pm

It's been a while since I've made something for HF so thought I'd make some banners.

*Made to fit 120x150px avatars - might add new versions for 120x120px.

Aight.

Guess I'll have to make multiple variations or something.

Anywho, thank you. <3

Aye, for some reason, dimensions change after you download an image. Not sure if IMGUR is compressing images, or what, but I'll have to look into it for sure.

Also, banner scales with a resolution of the screen, so I'll either have to come up with one banner, that would look good on all resolutions, or make multiple ones.

Ey! I appreciate that bud. :3

I plan on making some more, as soon as I fix these two. :3

I might tweak the profile header so that the banner image isn't hidden as the browser window becomes smaller.

These look really great, glad people are taking advantage of the new features on the forums!

That'd be amazing. I'd be able to produce a lot more banners that way. Having to make multiple versions of the same one makes the whole process a lot slower to the point where I don't even feel like doing it.
