Thread: [Forgot Authy backups password](#)

vampire2 - July 19, 2019, 1:53 pm

Hi there,

I've been logged out due to password / authy reset on HF.

I've tried repeatedly to log back into my authy account with all the backups password I could remember, but none of them work. Ofcourse because I haven't used Authy in years.

How do I get access back to my account?

Original account (UID since I can't post links) :- 370510

It's your responsibility to keep your account credentials.
HF no longer assist in account recovery.

You have just the right name for you buddy.

You won't understand memories of a 9 year old attachment.
