not trolling guise .. this is a style of artwork ..

By the way , i added a new wallpaper in the OP ... the 2nd peice is an all black background , then i put various colors on that, then i put black lines all over that, then on top of that i put even more colors .. Size 1920 x 1080 .. microsoft paint wallpeper drawn from scratch .. enjoy guise .. maybe I'll make more of these .. lmk if u have some suggestions on what colors i shoudl use...
