Thread: [HF Email Alias Forwards](#)

Omniscient - July 22, 2019, 4:50 pm

This is to officially announce that HF email alias forwards for Ub3r is active again.

All members with an existing forward are getting an email at this time. In that email is an activation link. Only activated forwards which go to legitimate email boxes will continue to work.

If you are an Ub3r member and wish to have an @hackforums.net email address you may do so here:

<https://hackforums.net/alias.php>

If an alias is taken and you're certain it was assigned to be yours please PM me the alias and the forward. I can look into the files to see why you have not gotten the activation email. I suggest you also look in your spam folder just in case.

You should also make sure you are subscribed to HF emails.

<https://hackforums.net/subscribe.php>

Please note that your username does not entitle you to the alias. Abuse of the service will result in your email being blackholed.

Cooligan - July 22, 2019, 4:55 pm

YES!

For one thank you so much for this.

Two, I am beyond happy that I was able to get: cool@hackforums.net

It's exactly what I wanted and exactly what I somehow got in time. ?

+mK - July 22, 2019, 4:57 pm

Got the e-mail for activation for my original e-mail address. Working as expected. Tried changing my alias, just awaiting the activation e-mail. I'll give it a few. Thanks for opening this back up!

Edit:

On the "Pending Activation' step of the alias page,

"Visit your email inbox and activate the email forward or choose or new email forward below."

should be:

"Visit your email inbox and activate the email forward or choose a new email forward below."

James Burnham - July 22, 2019, 5:30 pm

Works well. Thanks. I hope people won't abuse this.

Dan. - July 22, 2019, 5:31 pm

Apparently I had already reserved dan@hackforums.net

Nice!

Pyro - July 22, 2019, 6:08 pm

The selected email alias is taken. Please go back and try again.

I wanted pyro :(((

Hex - July 22, 2019, 6:30 pm

Sweet! Thank you! Not that it means anything, maybe never will but I got a single digit forwarder!

Money- - July 22, 2019, 6:35 pm

I got an error for some reason after entering the alias and forward email lol.
SQL mybb error?

There's still lots left, it was just released a few hours ago. Get a OG one now before they are all gone

Evil - July 22, 2019, 10:30 pm

Very excited for this. Id much prefer using email when doing deals that don't have to be finished immediately. Now I can just tell people to email me and make a contract instead of having to use discord which I hate using for anything but casual convo. Also, I got my username Evil as well so that is very nice. I didn't know this existed back before I got uber, but Im glad you brought it back!

Two or three days. I have it partially resolved and now I'm just waiting to speak with Xerotic tomorrow about how we'll proceed. We have some decisions to make about which service to use and we may also need to do some additional coding based on that choice.

RIP, I kept seeing all these people say that they have their email aliases, is that because they had them when the emails were up?

Omniscient - July 29, 2019, 12:57 pm

Quote:Hopefully Omni considers giving this option to LIFETIME I33t members

Sorry but no. We have a limit to the amount of aliases we can offer so that means we have to limit who can get them. It will be an Ub3r only feature.

Xerotic - July 30, 2019, 3:09 pm

Update!

Email forwards are now enabled again: <https://hackforums.net/alias.php>

We have switched email forwarding services and this will require all active forwards to confirm their email with our new service, DuoCircle. You should have already received an email from them to confirm your destination email with their service.

If you have any questions, comments, or concerns then please feel free to post below. Thank you.

You have to confirm it twice. One you get from HF and the other from the 3rd party mailer.
