Thread: [90% AUTOPILOT METHOD \[\\$300 A WEEK\] - SUPPORT GIVEN](#)

4RJ4 - July 23, 2019, 9:09 am

The method involves use of free bots for the autopilot income.

I will provide support and mentorship to help walk you through the method if needed, though it is very easy to pickup.

Here's a short Q&A for any further questioning:

Q. In what countries does this method work?

A. This method is worldwide. You can use this anywhere and everywhere.

Q. How old do I have to be to do this method?

A. Any age. There is no limit to age and you don't have to be older than 18. This is perfect for younger entrepreneurs.

Q. Is this method working?

A. Yes. I have a lot of proof of earnings and vouch copies have and will be offered to get reviews.

Q. Are there any initial investments required?

A. No. You can do this with \$0.

Any further questions, PM me or post here.

Q. I have another question that's not included. Where can I get answers?

A. PM me on HF. I'll respond quickly!

Uniqueness: 10/10. Would not have found this anywhere else.

Profitability: 9/10 While it does make around 300 - 350 a week, it is pretty much entirely autopilot.

Support: 10/10 OP was extremely helpful in answering my questions.

Overall I am impressed with this!

PM me for proof of payment.
Various methods of payment, I use Paypal to claim.

It may take you a week to build up to \$50/day, but once you learn the method it'll become easy. There are other resources you can use which I describe in the PDF, and can walk you through myself.

It does require selling but it's not necessary to know perfect english. 1 Hour daily is roughly what I dedicate.

Your profitability will scale with the power of the computer you have.

For an almost auto pilot way of making money, I would highly suggest it.

Definitely worth the \$30!

where does the money go?

and can you choose to get it directly into your bank account or paypal?

how much time is needed to do this before it gets 90% autopiloted?

how many bots can I have? I saw you said the more bots the more I get

You can receive your payments through paypal or BTC. Within the day you will be 90% autopilot. Technically as many bots as you want but, realistically keeping over 40 in check will take a lot of time.

It's nothing to do with mining and shouldn't use up too much CPU as long as you run as many bots as your PC can handle.

(Jul 27, 2019 06:34 AM)cprop34 Wrote: [\[CITE\]](#) This bot requires a strong GPU?
Nothing stupid, my PC isn't strong itself but it does the job. If this is a real issue for you, then there are always VPS's.

so will it take me the whole day to make this work and after that its full go after?
what if I only have around 30 min would it still be possible?

Yes I will help with the configuration. Like I stated earlier, running more than 40/50 bots can be extremely hard to keep track of.
