Hello, Anyone interested in Cheap Windows Keys?

Windows 10

Windows 8

Windows 7

Office products

Are you interested in this? Shall i open my shop here?

They are really cheap and perfect for reselling

Depends on how cheap, and how they were acquired. Assuming generated from a script or something?

I believe selling Microsoft windows keys are disallowed.

You cannot sell serials or keys on HF for products that you have not developed yourself. Do not open a shop.
