^ is a Scammer had me make him a loader and it was my fault i knew he was gonna scam me. He didn't pay and ran with the loader. He is making a Paste called Reaper and making it a p2c. So fuck the cunt here is the loader (I rushed bcuz he wasn't paying much anyway) It uses Trinity Seal for authentication. It already manual maps the DLL you just need to add a DLL to the resources rename it to USER64. If you want to use it here is how

1. Make a account on Trinityseal.me
2. Change the secret key
3. Use the Hash checker to get the hash and watch the video they explain that part better

Then create a token and use it to register.

[Download Reaper.world Loader.rar from Sendspace.com - send big files the easy way](#)
