please send me PM. I want to buy

bluebills - November 18, 2019, 4:47 pm

So i gather that this was complete bullshit and need is not a working method as i see 0 confirmation from anyone and no responses from the seller with multiple questions asked that should really be addressed in the initial post as the seller should be fully aware by now as to what popular services would be utilizing his service.

Short answer. This is not a viable solution to your sms verification.

Save you some time going through the entire thread your welcome.
