Group Description: Prevail is a group of members who discuss entertainment. This includes, but is not limited to music, cinematography, artwork, filming, gaming, photography, journalism and all other forums of creative entertainment. We wish to use Hack Forums and our group as a catalyst to encourage discussion in all forms of creativity. We want our members to have a place where they can feel like they can share their projects, discuss other projects, discuss anything related to entertainment they have an opinion on (your favorite TV show, song, book, game etc.) and relax around members who have the same interests as them. We also wish to use our group to provide members on Hack Forums with guides and other various reviews that they can read and take part of without actually being within the group. Our overall goal is to provide Hack Forums with a creative work space that also gives back to the community.

Recruitment Requirements: There are no specific requirements regarding account age, rep, or standing within the community. We just have a zero policy rule on members with scam reports or are involved in potential projects that can make the group look bad.

Age: 19

Favorite form of Entertainment: YouTube or Music

Why do you wish to join the group?: I'm a creative. My poems are published in collections, I've attempted to run multiple YouTube channels and I used to write TV scripts as a hobby. Also, it would be nice to network with other creatives. Since a young age I've been writing - with my first poem appearing in a collection when I was 11 - when I was 14 I drafted scripts for a whole world I imagined called 'Dreams & Reality' that aimed to explore societal issues through the medium of TV, poetry, novels and comics (unfortunately I gave up on that). My YouTube channels have never took off but I had one peak at 1,000 subscribers - I'd be interested in doing it again.

Anything else would you like to include: No thank you.

Favorite form of Entertainment: Music. I usually listen to music all the time, while working, gaming or doing house chores. Its a easy way for me to keep myself Entertained and calm throughout the day. Often when I don't have data or Im not home, I just try to remember songs, So I sing whatever while im not home. It keeps my mental status very relaxed and just keeps me entertained and hyped for the rest of the day.

Why do you wish to join the group?: So I can finally express my feelings towards eminem with other members, and discuss various topics about rap and various music artists throughtout the industry. This would be a great first group for me, perhaps I will be able to also share my trash rap lyrics in the upcoming days and my dead sense of humour. Since I don't have good friends, neither online or irl, Im looking to make new connections with people, hance new friendships and mates. ?

Anything else would you like to include: I don't really have any "chill" friends online or irl to talk about some topics. Im just hoping to find at least someone to understand how weird I am but also have some common behavior like mine.

Favorite form of Entertainment: Gaming is my most favorite form of entertainment, ofcourse i like to listen to music on a daily base aswell and i love to watch movies tho, a lot of movies actually but gaming is my #1 form of entertainment without doubts, been gaming as long as i can remember, started with Habbohotel when i was 10 or 11 i think followed by Runescape which introduced me to the world of MMORPG's which basicly got me realy addicted to gaming at one point.

I'm currently playing a bunch of games such as Fortnite pve & pvp, Battlefield v, black ops 4, overwatch, dauntless and paladins (i switch between games weekly kinda, depending which i find most interesting at that point)

Why do you wish to join the group?: I'm sure that i'll be able to contribute properly often, contributions regarding activity (participating existing threads) but also contributing by making unique threads related to entertainment (not gaming specifcily since i'm pretty much enjoying most forms of entertainment) aswell.

I would also like to get the chance to socialize with like minded people, online.

Kroh - August 5, 2019, 12:50 pm

Name: Krohh

Age: 21

Favorite form of Entertainment: Music & Movies

Why do you wish to join the group?: I'm a massive fan of music and film in all its genres. I am also an ex-art student and self taught bassist, guitarist and vocalist and judging by the description of the group, I can certainly see myself becoming more than pro-active. It would also make sense for me to actually make some friends here on HF, because really I just circulate the Lounge, Vices and do nothing with my time online. I believe this group will allow me to be myself and I'll be completely honest, its the only one I've looked at that I would actually contribute to.

Anything else would you like to include: I'll just start by saying that, any opportunity I am given is optimally maximized and I will not under any means waste it. I feel like you could offer me a lot in the form of engaging conversation and I could offer the exact same. I will end this by listing off some shit for you all below.

Favourite Bands/Artists: Whitesnake and Motley Crue are my all time favourite bands, however the list extends into the vast black void. I'll just list some. Avenged Sevenfold, Bullet for my Valentine, Evanescence, The Winery Dogs, Mr Big, Deep Purple, Ricky Martin (livin la vida loca motherfuckers), Kill the Lights, Frank Sinatra, Def Leppard, Billy Joel, Tommy Lee, The Beastie Boys, Apollo 440, Jane's Addiction, Saliva, ZZ Top, Poison, Kenny Loggins, Showtek, Dope, Rammstein, Tech N9ne, MGK, Eminem, Snow Tha Product, Ariana Grande, Taylor Swift, Hollywood Vampires, Takayoshi Ohmura, Babymetal, Jiluka, Deluhi, Metallica, Judas Priest, Journey, Bryan Adams, Uncle Kracker, Genya Ravan, The Cult, Bob Marley, Martha Reeves & The Vandellas, Sixx A.M, Frank Zappa, Bon Jovi, Kiss... The list goes on, thats just 1/6th of the artists/bands I have on my phone and I dont use streaming services...

Favourite Movies: THE CROW OBVIOUSLY, The Warriors, The Wolf of Wall Street, Pirates of the Carriibbean... I mean... I could literally go on for fucking days with this one and still be remembering things...

Favourite TV Shows: The 100, Grimm, Power, Billions, Ballers, Stranger Things, NCIS, again I could go on forever with this one...

Favourite Videogames: Oblivion, Skyrim, Yakuza 0,1,2, Thief, Dishonored, Splinter Cell Blacklist, Assassins Creed... the list goes on, I have nearly 300 games on steam, thats not including half the shit I played back when I still used and owned consoles. I started on PS1, owned a GBC, moved to PS2, revisited NES and SNES, moved to XBOX 360 and figured out how to hotswap mod disks on my own with no outside sources and then found my home on PC.

I sincerely hope this application has enough effort put into it for you all to consider picking me up as a member. If there's any more information you require or any queries I'll be sure to provide/answer.

Why do you wish to join the group?:

I've read over the group thread, and have been thinking about this for a while now. I'm really interested in what this group is based on, the owners all seem mature, and professional. I really thinking that Prevail has the potential to become a REALLY great group. And with the right members, Prevail can reach that goal.

Anything else would you like to include:

I think I could be a valuable asset to Prevail. I'm a positive person. I don't get down with any stupid things. I'm willing to contribute daily to the group, and it will be my personal goal to uphold and maintain a positive reputation for Prevail. I know that I'm a newer member, but I'm active, and have a lot of cool ideas to contribute to the group. Thank you for giving me this opportunity!

—

If you are interested in knowing what my contributions are going to be, I plan on starting a new YouTube channel and recording gameplay videos, getting my twitch streaming gear together again, and hosting live streams again. I will be setting up a schedule, and all Prevail members who are gamers are more than welcome to join and broadcast with me. There are many other ideas that I am putting together and planning now. Those are just the 2 main plans as of right now :).

I haven't been active in the past few years and my previous activity was largely around hosting and I was young.

I love the forms of entertainment I listed and they are all part of my daily routine and I wish to be part of a community to discuss them :)

Anything else would you like to include: The reason I stopped being active was life got hectic and I'm finally able to slow down a bit and sink more time into something new again.

Favorite form of Entertainment: Movies, TV Shows, Gaming, Music

To be honest I could list millions of things for each section, so I'll list a few of my favorite so I don't get carried away - you'll get the point I hope.

Favorite Movie(s): The Shawshank Redemption, Pulp Fiction, The Wolf of Wall Street, The Silence of the Lambs, and the Dark Knight Trilogy, Small Soldiers.

Favorite Show(s): Breaking Bad, Mad Men, Lost, Dexter, GoT, Stranger Things, Lucifer.

Favorite Video Game(s): Assassins Creed (Series), Oblivion, Starcraft, Halo (Series), The Last of Us, Dying Light, Destroy All Humans.

Favorite Music: I listen to a variety of genres, I'm open to pretty much anything but I'll link a few of my favorite songs from various genres in the spoiler!

Spoiler ([Click to View](#))Zeds Dead x Illenium - Where The Wild Things Are
[NF - Paralyzed](#)

[Linkin Park - CASTLE OF GLASS](#)

[Thirty Seconds to Mars - Kings & Queens](#)

[Post Malone - I Fall Apart \(Renzyx Remix\)](#)

[Post Malone - Too Young](#)

These are just a few of my favorite songs from various genres.

Why do you wish to join the group?: Well, I've been on HF since 2012 and I've been in a select few groups. Not in many, and I've always been a lurker. I don't have that many posts as compared to a lot of other Ub3rs, maybe a few bunch have a post count lower than mine. But as I grow older and become more experienced, I plan on posting more and throwing away the lurking phase. I think being in a group would help me with this process, I'd be able to actually get to know people from HF and not be a simple bystander. I've only talked to a few people actually off of HF, and I've only remained friends with one. So I'm looking to talk to more people, and this group is right up my ally. It'd be nice to talk to people about shows, movies, games, music or anything of the sort. I even like some forms of art and would love to talk about this with people in the group.

Anything else would you like to include: Well, rather than continuously rambling on I'd like to contribute to this group in any way possible! I'm looking to make a bigger name for myself here on HF and just converse with a chill group of people. I think this group would be a great fit and I hope I'm given the chance![b]

If you have any questions feel free to DM me! I'd love to answer them. :) Cheers and good luck to everyone else applying.

tonitones - August 15, 2019, 7:36 am

Name: Tonitones

Age: 24

Favorite form of Entertainment:

My favorite forms of entertainment are video games(PC, mobile games, Consoles, Arcade), YouTube, forums like HF(the best forum and the very first forum that I really invested time in) and Cars.

Why do you wish to join the group?:

I've been wanting to join a group ever since I joined HF, but I haven't really given it a thought before because most groups that were recruiting were looking for skill sets that I didn't really qualify. For example, having at least a knowledge in hacking in which clearly I don't have. I know how to code, but I don't know how to use it for hacking and the like.

What caught me to try and join this group is "We want our members to have a place where they can feel like they can share their projects, discuss other projects, discuss anything related to entertainment they have an opinion on and relax around members who have the same interests as them.". I am convinced that I can also share and discuss on some topics that I think I can relate to and have at least a knowledge in. Be it video games, movies, music etc. At the same time, I can at least make a few legit friends here in HF.

Anything else would you like to include:

I joined HF after I watched the movie Hacker (or known as "Anonymous"), thinking that I would be like Alex from the said movie (Btw, you can watch the movie [here](#)). Did I become like him? Nah, I figured I can't be like him without investing much time where it's not possible for me to do at the moment 'cause of college.

Anyway, what I'm really passionate about are cars. I'm more into Japanese cars or JDM cars. It's really ironic that I love cars but I don't own one, but I plan to own one like the car in my sig. It's a Honda EF Civic.

What video game genres do I like? I like sim racing. Since I don't have a car yet, I'll just race virtually. I also like RPG games that are open world and has many side quests in it which makes it seem like it's endless. Examples of RPG games that I like: TESV: Skyrim, Kingdom Hearts, Final Fantasy, Monster Hunter, Fallout. I also like games that have a story to tell which make a player get hooked in to it and make the player feel like he/she's part of the story. For example: GTA San Andreas, Watch Dogs, Assassins Creed, Call of Duty.

I think that's pretty much it for now? Thank you for reading my application! I hope I could get a chance to be a part of this group and meet all of you and hopefully meet legit friends online or in HF. Good luck to all applicants. Cheers ?

My recruitment will be a bit different than the original Application Format.
Hopefully this is fine as well :)

Username: Regulus

Age: 25 Years Old

Gender: Male

Country: Sweden

Most active in: The Lounge

Why should we accept you? (Why do you wish to join the group?): I was very active back in the good old days and then went inactive for a good while, but started to lurk around and post more often recently, so I am planing on getting as active as I was before again since I have a lots of OG and Old friends on here that I've known for years.

And since this is a entertainment group I could start by saying that my favorite type of entertainment is producing music, and play games.

Here's some games I play and the DAW I use to produce music in.

I mostly play: GTA IV | Counter Strike 1.6 | Left 4 Dead 2 | Max Payne etc

DAW I use to produce music: FL Studio (Fruity Loops Studio)

I am not sure if this is relevant but I have nothing to do so I thought I'd link some contributions I've done through the years on HF so others can see.

Since I've been inactive lately there's probably a lots of new faces on here that has absolutely no clue who I am and maybe would be interested to see what I've done in the past.

Here's some contributions I've done to this community.

(I have decided to exclude all the money giveaways I've made since I think they're irrelevant in my opinion)

Favorite form of Entertainment: Music. While metal was my first love and hands-down my favourite genre to see live, I make the point of listening to anything that is suggested to me. Branching outside of the genres I was comfortable with has been the greatest help to my journey with music, I guess.

Why do you wish to join the group?: I've always had the desire to explore music in any form I come into contact with, I believe Prevail is the place I can find obscure artists and music that would be difficult to find elsewhere. Name: Houtarou

Age: 20

Favorite forms of Entertainment: Anime is my primary area of interest but I also have a passion for Video Games, Photography, Journalism/Creative Writing, and Music. To be honest, I dabble in almost everything and have an enormous thirst for knowledge so nothing is off the table.

Why do you wish to join the group?: At the end of the day, I don't just want idle conversation, but quality discussion. Besides having a solid group of leaders, most members that have been accepted into the group also appear to be knowledgeable and interested in the same type of interaction I am. There is a wide variety of people who pursue a wide variety of topics, which is not only positive but vital for a group of this type. This is something I really can't say about most of the other groups on HackForums, and the primary reason that Prevail is the group actively recruiting that I'm most enthusiastic about.

Anything else would you like to include: I was admittedly distant from HackForums for a year or two up until this January, but that has completely changed in recent months due to the sheer amount of new features and opportunities coming to the forum now that are keeping my attention. This is likely the first time since registering on the site that I am truly excited to participate and get involved in new groups, projects, and the marketplace.

To elaborate a bit on the entertainment that I enjoy, anime has been deeply important to me for almost five years now. Throughout that time I have contributed to a large number of projects within the niche, both on and off-site. Besides actively averaging a few hours of watch/read time daily, I was a part of both Anime Adventures Weekly and Baka News Weekly here on HackForums, I was the Owner and Editor-in-Chief of an anime-centric editorial website for two years (this project contributed heavily to my interest in creative writing and journalism), I am the Administrator of a decent-sized character database website, and have contributed to multiple online businesses that are still operating.

I have been playing video games my entire life, starting with the GameCube and Game Boy Micro before moving through all of the other handhelds, Xbox/PS consoles, and now to the PC and Nintendo Switch. My primary interest is in single-player, story-driven experiences like the recent Fire Emblem: Three Houses, Assassin's Creed Odyssey, Persona 5, and Nier: Automata. I do however also play some multiplayer games on PC like Minecraft, Forza Horizon 4, and Grand Theft Auto V. Pokemon has been a lifelong source of joy for me seeing as they were some of the first games I ever played and is probably my favorite franchise of all time.

Photography is purely a hobby for me, despite my father having been both a contract and freelance-based professional in this area for more than 30 years. My areas of focus are on nature and landscape but I have also begun branching out into urban and street. That being said, I really just take photos of what I like. The only thing I have any reluctance towards is portrait photography, likely stemming from my own aversion to being in and on camera.

Music, for the longest time, held almost no importance to me at all. Throughout most of my years in school, I didn't listen to much at all. It wasn't until post-graduation when I became significantly more dedicated towards anime and other creative outlets that I recognized its importance. Considering my roots here, I listen primarily to Japanese and Korean stuff (English of course as well), spanning the genres of Pop, Rock, Electronic, Classical, Alternative...basically everything.

I have, during the same five-year timespan originally mentioned in my first paragraph about anime, become incredibly open to diversity and difference of opinions in all aspects of my life. I think that this, paired with my varied group of interests and desire for knowledge and discussion, makes me a quality choice to be part of Prevail. With all of that being said, I hope you'll have me and I appreciate the leadership for taking time to go over and read this application.

Age: Almost 20

Favorite form of Entertainment:
I have a lot of forms of entertainment.

1. anime

I love anime, their style, their animation, their character designs and concept, their stories. Some of my favourite animes are.

A. Monster; it's about a doctor that saves a child that costs him a lot in terms of popularity in the hospital and the child turns out to be a serial killer and has split personalities.

B. Sword Art Online; it's about a guy trapped in a game and meets the love of his life and successfully returns to his normal life. The next season he enters a game where if people die in the game they die in real life if they get shot by one guy only. He manages to fix the situation and the current season is where they make a headgear which can connect to your soul and it's really complicated and amazing.

C. Shiki; it's about a village in which there is a western style mansion and it's haunted until some people travel to settle in the mansion and they are only seen at night, they're called the resin of vampires in western terms. They can't enter houses without permission but there is a subtype of them called werewolves which can enter the house at will without any permission.

2. Music

Some of my fav channels;

[Skillet - Whispers In The Dark \[HQ\] - YouTube](#)

[Eurielle - Carry Me \[Emotional Vocal Orchestral\] - YouTube](#)

[Skillet - Awake and Alive \(Official Audio\) - YouTube](#)

[Blankz - Soul Society - YouTube](#)

and a lot more

3. Drawing using paper or using graphics tablet, sadly I don't have a portfolio yet.

4. Reading about history, some of my fav channels:

[Kings and Generals - YouTube](#)

[HistoryMarche - YouTube](#)

[BazBattles - YouTube](#)

Takehito Morokuzu - September 6, 2019, 3:43 pm

Hi. My name is Takehito Morokuzu and I would like to apply for Prevail.

I am 17 years old, I live in the UK and I'm currently at college doing ICT and Games Design.

Ever since I was around 4/5 years old, I have been interested in computers and have been using them almost every day since. I like learning about hardware and software, and I would like to learn how to program (I can program some basic stuff but nothing too advanced yet, I made some powerful stuff but it's actually not too complicated)

My favourite form of entertainment would probably be Japanese Metal music (mostly Visual Kei, you've probably heard of it if you listen to J-Rock at all). Some of my favourite bands would be Maximum The Hormone, The Gazette, Nazare, and many others, no point listing them all here.

I also watch Anime, there are probably other people in the group who also watch anime, I'm currently watching the 4th season of Durarara, it's about a school kid who runs a gang called the Dollars, it's very good and everything links together so well.

My MAL profile: <https://myanimelist.net/profile/yotoprules>

I would like to join the group as I want to improve my social skills. Having people to talk to may help me as I have Anxiety and other mental disorders, and a group just looks really interesting to be in.

I'd just like to say good luck on the future of your group, I hope everyone is doing well whether I am accepted or not. Have a great day :)

Favorite form of Entertainment -

Through the years i've changed a lot. Specially now when im in my teens i seem to change a lot of the things that satisfies me. For example, i used to love watching movies and just playing games all day. Sadly, as time change I change too. School just canceled that out and I'm not able to play as much as i'd like too. Don't get me wrong, i still watch a lot of movies(horror), since i seem to procrastinate a lot.

Right now, programming is a huge part of my free time and it's the thing that i really love in life. I'm currently studying computer science so having such a hobby actually really benefits me in school. And i hope to work as a programmer one day. I have a lot of plans for my programming future, and i look forward to learning more about it.

Other than that, watching youtube is by far the most relaxing thing ever. Just browsing videos while the time passess is one of the best things in my opinion. I can learn to much in just one night of youtube binge. I try to stay away from brain dead videos of course. I prefer watching videos like kurzgesagt, or top 10 facts. It puts me in a really coozy mood.

And that also brings me to my next sort of hobby i have, and that i book collecting, and reading. Ever since i was a little child i've always loved books. I've even thought about making a book review on hackforums, i think some people would love to read that. I read everyday before i got to sleep and trust me, it will get you to sleep better also.

That's pretty much the entertainment i got in my life, I'm a simple guy and try my best to live a simple life.

Why do you wish to join the group? -

To me, this question has always been hard to answer. Since i never really knew why i wanted to join a group. But after being a part of a few groups around here. I really miss the feeling of people always having my back on here. And people to chat with. While I was in a group I underestimated it's value, i didnt see the potential of having so many friends around me sharing the same interests as me. But now that is really clear to me and i miss it. I want it. And I'm ready to put in the time to have that again.

Anything else would you like to include - I'm not gonna say anything unoriginal here like "I hope to meet some new and cool people". It says itself you will when you join a group on here. But i really look forward to learning more about everything really. I ready to learn, listen and talk to people. I miss that.

I really think this group fits me well. I was born creative, i've never been that good at math but creativity has always been my strong side and i can't wait to share some of my creations with you

guys.

Thank you for taking your time and reading about my life.

Favorite form of Entertainment: Cinematography & Music

Why do you wish to join the group?: I feel like if you're a member of a group you could get into more quality conversations with other members, share thoughts and honestly, get noticed. I tried leaving an impact on some people by really spending a lot of time on creating a post but I would always end up unnoticed. I have a lot to talk about, I guess I'm a fun and normal person and if we're going to talk about cinematography and music, it will be awesome.

Anything else would you like to include: Well, I'm new to the forum and actually first time seeing the groups. I was wondering what those graphics below the names are for some members, but now I know that it means they're part of a group. I would like to be a part of a group because I feel it would open doors for meeting new people and honestly more quality communication because so far I haven't seen some threads or members that I was able to get into a conversation except Funtela. I guess that's all, I really hope I could be a part of this pretty awesome group.

hands to DJ, as I also own a cellular company. I'd love to have some discussions with people who have an interest like me in the nightlife and music.

Favorite form of Entertainment: Too many! Learning, gaming, sports, music! Unfair question, haha.

Why do you wish to join the group?: I am an extremely versatile person who has accumulated a vast amount of skills in the last 5-6 years. I am well versed in Database languages such as SQL but also coding languages such as C/C++, Java, JavaScript, LUA, Perl, and especially Python.

Anything else would you like to include: Honestly, if you give me a chance, I will contribute so much to this group. Music, old-school boom-bap for me?

Why do you wish to join the group?:

I want to talk about everything, learn new stuff and meet interesting people. I think this group has it. I can talk all day about forms of entertainment since music is one but not the only for me. I also like gaming, movies, debating about stuff that most won't talk about and I think ? can offer me a pretty good chance to find what I want in a group. As honesty can make someone win sometimes, the user-bar is also one of the best I've seen, so that's definitely a nice icing in the cake if I get the chance to get accepted!

Anything else would you like to include: I'm gonna be active enough and interact as much as possible, I don't know if I can be pretty helpful but why do I need to be, we will talk about entertainment after all?

ps. thanks for considering me ?
