Thread: [Ability to exchange game cash to bytes](#)

packofmidgets - July 27, 2019, 1:00 pm

I think it would get more people involved in the games if We can exchange game cash into bytes like we can do with bytes into game cash.

Just an idea but then again probably some way they can exploit it or I am sure it would have been done already.

Also I would suggest showing how many points/xp until next level. This might already be there I just dont see it.

EDIT*** Found the xp until next level so disregard that one xD

urns - July 27, 2019, 1:02 pm

I dont think it is a good option tbh

Mix - July 27, 2019, 2:22 pm

This would make bytes way to easy to get. so I wouldnt support this idea, but I understand and see where you are coming from.

Spaark - July 28, 2019, 2:46 am

Bytes are a reward for posting. You can use this reward as an advantage in the HF Game.

Nothing more to it imo.

Mutiny - July 28, 2019, 3:12 am

A 1:1 ratio would be ridiculous to exchange game cash to bytes, It has been suggested a lot though I think they said they might in the future but don't quote me on that obviously. To find your XP progress to the next level just click the little player icon near the cash amount.

Omniscient - July 28, 2019, 6:46 pm

One day it will be an option. I don't know when.
