So last week I was waiting for episode 38 of JoJo's Bizarre Adventure: Golden Wind, when I didn't pop-up. It's now been rescheduled to be released on the 28th of July sometime during the day. This will be the first JoJo anime episode to be 1 hour long. You're welcome <3

Anyone else watching it? I read the manga, but I'm still hyped to watch it :)

I can't wait until it comes out. The anime does a good job at adapting the manga.
