If you've ever enjoyed the animes:

- How Not To Summon A Demon lord
- The Devil Is A Part-Timer
- In Another World with My Smartphone
- That Time I Got Reincarnated As A Slime

Isekai Cheat Magician is pretty much like the bullet list at the top, but it is two OP protagonists. I definitely recommend it. The opening sounds similar to Overlord's Opening.

Fortunately, it's being subbed and dubbed. Below are the airing times:

Sub - Every Friday (Same time as Dr Stone.)

Dub - Every Wednesday

Hope you enjoy <3

Is it more like How Not To Summon A Demon lord or Slime?

I have a strong dislike for demon lord for it's lack of real storyline :<

I have a strong dislike for demon lord for it's lack of real storyline :<I just mentioned Demon lord because it's similar in a way as both protagonists are OP and summoned.

They are nothing alike in terms of story.

Everyone tells me that this show is trash so I really don't know if I should give it a try...

It's pretty boring when you actually stop to think about it... Hmm. Well I just recommend checking out the first

episode, if you don't like it, then don't watch it :)

The only saving grace this show has is how good its opening is.
At least we can salvage that thanks to MYTH&ROID. ?

I have been watching it. Not the best I have seen but i enjoy it. My guilty anime pleasure is Isekai's with OP characters.

I am very disappointed in you young man ... nobody mentioned your name and I certainly never claimed to be friends with you considering who you were friends with why would I
I simply asked if you could help out with a project as I did most people in that group.
Now kindly stop talking about me on here thank you :)
