Thread: [10% Profit in BTC everyday. \(Buy Amazon Gift Cards on HF\)](#)

Zexi - July 29, 2019, 3:25 pm

You will not learn how to cashout, you will just do the boring part for me.

Looking for someone to partner up and do the boring part of cashing out Amazon gift cards. You buy them on HF at 70% and do the cashout part and i pay you 80%. The more you buy/invest the more you get back.

Requirements: Reputable HF account.

Amazon Account with a US address (Older than a year)

Funds to invest (350\$ is a decent amount where you make 50\$ a day)

Hit me up if you wanna make some money. If i ignore your message it probably means i don't think you are suitable.

As everyone else has asked, I'm also curious what you mean by "the cashout part"?

duepi - July 30, 2019, 3:01 am

I don't understand your part of the deal

A user put the investment, buy agc cash out and then?

What are doing on this?

Why have you never brought this to my attention.

We could have been partnered up Dorrance & Zexi against the world Album otw.
