for Gfuel mentorship, is it cracking, how many tub and starter codes can we get per day, and is it easy?

It is, It depends, I consider this a AFK mentorship because your better if you leave your PC on, or invest in a rdp(10 GBP/1mo)

It will be both gfuel and a different site combined in 1 course that can both provide you with tubs, starter codes, shakers, and more.

As for easy:

It's semi easy, anything you need to know is taught to you and you can do this while your at school or work as long as you have a PC or rdp.

Yes, I ain't gonna lie this does require some effort but you literally don't got to invest a penny into it, also this mentorship you can use for other stuff but I'll only be teaching these two
